Directions How to Order and Remit.

Write your Name, Post Office, County and State on every order or letter to us. Send cash with order. Observe cost of Postage and include with your remittance. Remit by Post Office or Express Money Order, Drafts on Augusta or New York, or Register your letter. We accept clean Postage Stamps—not revenue stamps—same as cash.

Note.—Have all remittances drawn plainly Alexander Seed Co. When convenient, we consider Express Money Orders cheaper and safer.

C. O. D. ORDERS.—We do not ship goods C. O. D. unless one-half the estimated amount of the bill accompanies the order. From this rule we do not deviate.

SHIPPING.—We can mail packages of seed weighing up to four pounds. The rate is eight cents per pound. The Express rate is not any more. If your is an Express office, so notify us, and we will send in that way. Heavier shipments by Express or Freight, as you direct. Parties ordering shipments by Express or Freight collect are expected to take them promptly when they arrive at their destination. This should be thoroughly understood when ordering.

Scale of Rates for Seed.

BY EXPRESS, PREPAID.

| 1 1/2 pounds | 10 cents |
| 1 1/4 pounds | 12 cents |
| 2 pounds    | 14 cents |
| 2 1/4 pounds | 16 cents |
| 2 1/2 pounds | 18 cents |

From 2 pounds and 10 ounces, add 14 cents for each 24 ounces up to 5 pounds, as for example:

2 pounds and 10 ounces | 12 cents |
| 4 pounds              | 16 cents |
| 6 pounds              | 18 cents |

We also have a special Express rate on seeds which average 35 per cent less than regular merchandise rate. We suggest that you include in your remittance for small seeds enough to prepay same.

Discounts from Retail Prices on Orders.

Please bear in mind that allowances named below APPLY ONLY TO ORDERS FOR VEGETABLE SEEDS in packets, ounces, quarter, half and pound packages, pints and quarts at retail prices, and NOT ON FIELD SEEDS, CLOVERS AND GRASSES.

Purchaser remitting Fifty Cents can order seeds as above amounting to Sixty Cents. Purchaser remitting $1.00 can order seeds as above amounting to $1.25. Purchaser remitting $2.00 can order seeds as above amounting to $2.50. Purchaser remitting $3.00 can order seeds as above amounting to $3.75. Purchaser remitting $4.00 can order seeds as above amounting to $5.00. Purchaser remitting $5.00 can order seeds as above amounting to $6.25. Purchaser remitting $6.00 can order seeds as above amounting to $7.50. Purchaser remitting $7.50 can order seeds as above amounting to $9.00.

All orders must be accompanied with a remittance to receive our liberal discounts.

Seeds for Market Gardeners.

We are in position to give Market or Truck Gardeners as low prices as those of any reputable seed house. Our stocks are the very best to be obtained, true to name and tested. We invite inquiries, and will give prices to those who will write to us. In writing, kindly mention variety, with amount of each article desired.

Seeds for Merchants.

Merchants will find our regular line of papered seeds, which are put up in 2 1/2 cent, 5 cent and 10 cent packets, an attractive packet to sell. Our papers contain as much seed as those of some houses whose price is higher. Our seeds are easy to sell, because they are well known. The wide reputation we have for selling the very highest and best quality of seeds, will be found fully sustained in our papered seeds. Merchants' sales would be largely increased by selling our seeds. We furnish lithograph hangers, almanacs and other literature, Write for our Wholesale Price List; also price on any seeds in bulk you need.

We take pleasure in recommending THE FRUITLAND NURSERIES, of Augusta, Ga., established in 1857 by P. J. Berckmans, and still conducted by him and his sons, now incorporated as the P. J. BERCKMANS CO. Those wanting Fruit and Ornamental Trees suited to our Southern climate cannot be better suited than by dealing with them. Their Illustrated Catalogue mailed free by addressing them. Mention our Catalogue.

Alexander Seed Co.

Give no warranty, expressed or implied. While we exercise every effort to procure the best varieties of seeds, and such as are fresh and genuine, we will not be in any way responsible for the crop. Our guarantee does not extend beyond our honest efforts and intentions. If purchaser does not accept the goods on these terms, they must be returned at once.

Note.—Further, that all our seeds are tested for germination by an apparatus that has the approval of the United States Department of Agriculture.

In writing, ordering or making out Post Office or Express Money Orders, Checks or Drafts, address plainly,

ALEXANDER SEED CO.,

AUGUSTA, GEORGIA.
TO OUR FRIENDS AND PATRONS.—It is with appreciation that we take this opportunity to again thank our patrons for their liberal patronage during the past season, and hundreds of them continuously for so many years. Especially gratifying is it to us that during the past years our orders came so numerously from new customers—those who had not dealt with us before—our last Spring business largely exceeding in bulk and amount that done by us in any previous year. While we naturally attribute this to the known high quality of seeds that we sell, we believe our patrons, who have become acquainted with our methods of doing business and our aim at all times to furnish only such Garden, Grass, Field and Flower Seeds as are best adapted to our Southern soil and climate, appreciate the fact that an order intrusted to us will at all times receive our careful, painstaking efforts to serve them faithfully and well. We have again found it necessary to enlarge our already commodious quarters, and have added another warehouse to our storing capacity, enabling us to carry larger bulk and complete assortment of seeds. Our system of testing seeds for germinating quality has the approval of the department at Washington. We carefully test all seeds before sending them out. No honest seedsman would knowingly send out seeds of poor quality; we consider this a crime. Those who deal with us can depend upon our selection of Seeds, Bulbs, Roots, Onion Sets, and every item we sell, as being of the highest quality obtainable. We urge our patrons to send in their orders early;—don’t wait until planting time. It is our rule, as near as we can do so, to ship all orders on the day they are received. We call attention to “Directions for Ordering” on the preceding page. Kindly follow them carefully; in so doing you will save us much time, as well as lessen the possibility of any errors of address or of filling your orders.

Soliciting your continued patronage, we are

Very truly,

ALEXANDER SEED CO.,
Augusta, Georgia.

</table>
We will send by mail, postpaid, a ten cent packet each, early Snow Ball Winter Turnip, Georgia Collard, Bon Air Ruta Baga and Augusta Early Trucker Cabbage, for 25 cents.

SEEDS IN PAPERS BY MAIL POSTPAID.

We pay postage on all packets, ounces and one-fourth pounds. For half pounds add 5 cents; one pound 10 cents; for half pint Peas and Beans add 5 cents; for one pint add 10 cents; for one quart add 15 cents for postage.

Extra Order Sheets and Envelopes will be mailed free to customers requesting them.

ASPARAGUS ROOTS.

These we furnish in the Fall months.

We can furnish the Palmetto, 100 roots, enough to set a bed 10x20 feet. Good strong two-year-old roots. Price, per 100, 75 cents; 500, $3; 1,000, $5. Write for prices in large quantities.

BEANS FOR LATE CROP.

We advise planting at intervals of two or three weeks from June till September, for succession of Summer crops. You will have abundant yield till killed by frost. Do not plant more than two inches deep, in 15-inch rows, three inches apart in the drill. One quart will plant 100-feet drill. These varieties do best for Summer planting.

Bush Snap Beans.

Again Bush Beans are very scarce, therefore so high. Genuine Extra Early Valentine can only be had from a few, and our stock, and the general stock all over the country, of the kinds below named, are very short. For this reason, we would advise those wishing Bush Beans to order early.

New Extra Early Refugee—This Bean has become very popular with the truck farmer. An immense yielder; sure to produce a crop in dry or wet season. It is ready for market ten days earlier than the old Refugee. A fine shipper. It is becoming one of the most popular green podded snap peas, both for Spring and Summer. Packet, 5 cents; ½ pint, 15 cents; pint, 20 cents; quart, 35 cents.

Extra Early Improved Valentine—One of the best and earliest. Very productive. Pods round. We warn our customers against the inferior quality of Valentine that is being offered by some. Price, papers, 2 for 5 cents; ½ pint, 15 cents; pint, 25 cents; quart, 40 cents.

"Best of All!"—Very popular; green podded snap and good shell bean. Papers, 2 for 5 cents; ½ pint, 10 cents; pint, 20 cents; quart, 30 cents.

Early Mohawk—Very early and productive. Long, green podded, flat. Papers, 2 for 5 cents; ½ pint, 10 cents; pint, 15 cents; quart, 25 cents.

Alexander Stringless Green Pod—The only stringless green podded bean in cultivation. Pods very wide, thick and fleshy, surpassing all others in crisp, tender flavor. Earlier by two weeks than the Valentine. Sure to prove of great value to the market gardener, as well as for home gardeners. Packet, 10 cents, 3 for 25 cents; pint, 25 cents.

Wax Podded.

Wardwell's Kidney Wax—Very productive, and one of the most popular early wax varieties. A great favorite for shipping; also with the home market and family garden. Pods are tender and long. Packet, 5 cents; ½ pint, 15 cents; pint, 25 cents; quart, 40 cents.

Alexander's Valentine Wax Beans—A comparatively new variety of much merit. Pods, golden wax, foliage large and strong, makes a fine snap. Try it. Packet, 10 cents, 3 for 25 cents; half pint, 15 cents; pint, 25 cents; quart, 40 cents.

Dwarf Black Wax—Very early and delicious; round, yellow pods. Papers, 2 for 5 cents; ½ pint, 15 cents; pint, 20 cents; quart, 35 cents.

BEANS—Wax Podded—Continued.

In the following pages we list only the best standard varieties of Vegetable Seeds, Grass Seeds, Flower Seeds, and such other articles as we think will be of value to our patrons.

SUMMER OFFER, 1900

THE 4 FOR 25 CENTS.

Mr. S. B. Kennerly, Tyler County, Texas, April 5th, 1900, says: "Gentlemen—In 1898 you sent me a complimentary package of Bush Beans (Scarlet Market Garden Wax), guaranteed to make in thirty-five days from germination. I planted the Beans on the 8th day of August and began eating them on the 14th of September."
Vegetable and Garden Seeds.

BEANS—Wax Pooded—Continued.

Dwarf Golden Wax—Very early; round golden pods. Papers, 2 for 5 cents; ½ pint, 10 cents; pint, 15 cents; quart, 30 cents.

Scarlet Ounces, for cents; winter/ounces, for cents; for ounces, pint, 10 cents; pint, 15 cents; quart, 30 cents.

Scarlet Market Garden Wax—A variety that we gave away last year as trial package. Our supply is so short of this variety that we can only offer a limited quantity. Price, package, 10 cents, for 25 cents; ½ pint, 15 cents.

POLE OR RUNNING BEANS.

If sent by mail, add 5 cents to price named for half pint, 10 cents for pint, 15 cents for quart, postage.

Field Horse or Greaseback—The old reliable round pod Georgia Bean. A plump, stringless snap, and good shell bean; bears till frost. Packet, 10 cents; ½ pint, 15 cents; pint, 25 cents; quart, 40 cents.

Improved Southern Prolific—Quick to mature; pods in clusters; brittle and tender. Papers, 2 for 5 cents; ½ pint, 15 cents; pint, 20 cents; quart, 35 cents.

Lazy Wife—Very prolific; pods four to six inches long, and borne in large clusters; stringless, tender, and rich. As a snap or shelled bean, it is one of the best of the Poles. Packet, 10 cents; ½ pint, 15 cents; pint, 20 cents; quart, 35 cents.

Corn Field or Cut Short—The old popular kind for planting among corn. Very prolific. Packet, 10 cents; ½ pint, 15 cents; pint, 20 cents; quart, 35 cents.

TRUCK FARMERS.

Send us a list of your wants, specifying varieties and quantities and we will be pleased to name special prices on our high quality seed. We are making it to the interest of the truck and other farmers to deal with us.

BEETS.

Soil should be rich and well spaded. Sow at any time from middle of July to November, in drills twelve to eighteen inches apart. Cover about one inch; thin out when a month old. Soak seeds over night. Ounce will sow 50 feet drill; five pounds to an acre.

If sent by mail, add 5 cents for half pound and 10 cents for one pound, postage.

Early Eclipse—Very rapid grower; smooth, intense blood-red skin and fleish; fine grained and sweet. Packets, 2 for 5 cents; ounce, 10 cents; 4 ounces, 20 cents; pound, 50 cents. Special prices in large quantities.

Extra Early Red Turnip—Of fine quality; very productive. Will make in seven or eight weeks from sowing. Boils red; tender and sweet. Papers, 2 for 5 cents; ounce, 10 cents; 4 ounces, 20 cents; pound, 50 cents. Edmund’s Dark Blood Turnip—Little later than above, but of superior quality. Packets, 2 for 5 cents; ounce, 10 cents; 4 ounces, 20 cents; pound, 50 cents.

Crosby’s Improved Egyptian—A choice form of the Egyptian and consequently is very desirable. Thicker in body than the Egyptian; small necked and dark fleshed. Fine for early market. Packets, 5 cents; ounce, 10 cents; 4 ounces, 25 cents; pound, 60 cents.

Extra Early Lentz—Of perfect turnip form; smooth roots; dark blood fleish; tender and sweet at all times and very productive. Packets, 2 for 5 cents; ounce, 10 cents; 4 ounces, 25 cents; pound, 60 cents.

Improved Long Blood—Very rich; flesh dark red; much esteemed for table in winter. Packets, 2 for 5 cents; ounce, 10 cents; 4 ounces, 25 cents; pound, 50 cents.

Half Long Blood—Follows the Red Turnip in maturity; dark blood-red; excellent for winter. Packets, 2 for 5 cents; ounce, 10 cents; 4 ounces, 25 cents; pound, 50 cents.

White Flesh Sugar—Grows large and is sweet. Packets, 2 for 5 cents; ounce, 10 cents; 4 ounces, 15 cents; pound, 40 cents.

60 PAPERS FOR $1.00

We will send by mail or express prepaid for $1.00, any sixty papers seed priced in this Catalog at 2 for 5 cents.

MANGEL WURZELS.

The value of the Mangel Wurzels and Sugar Beets for feeding cattle, sheep and swine, especially in winter months, cannot be too highly estimated. By their use stock will improve in health and condition. Cultivation is simple, yield enormous and cost trifling. To save them for winter use, bank carefully in a dry situation, as you would potatoes. They should be sliced before being fed; mix well with a little bran, and if possible, steam them. For deep soil the long varieties are best. Globes for sandy soil. Sow in rows two feet apart, thin to twelve to fifteen inches in row. Manure well. Five pounds seed will sow an acre. June, July and August are good months for sowing.

Golden Globe Mangel—Very large; excellent feeding qualities.

Golden Tankard Mangel—Half long; large, bright yellow and sweet.

Mammoth Long Red Mangel—One of the largest and best.

White French Sugar Beet—Grows large and very sweet. GOLDEN TANKARD MANGEL.

Price, any of above, ounce, 10 cents; 4 ounces, 15 cents; 8 ounces, 30 cents; pound, 50 cents, postpaid.

CABBAGE PLANTS.

Raised in Open Air and from our high quality seed. We will ship direct from a long experienced grower, by express, the following varieties, in lots not less than 1,000 at $1.50 per 1,000; $1.25 per 1,000 in 5,000 lots; $1.00 per 1,000 in 10,000 lots and over: Our Augusta Early Trucker, Danish Ballhead, Green Glazed and Short Stem Flat Dutch. It is not always best to hold us strictly to certain varieties, but mention when ordering the ones you would prefer; this might save delay.
... Alexander's Reliable Cabbage Seed ...

CABBAGE.

This is one of the most important of all the garden crops, and one which always receives our most critical attention. Upon the quality of the seed planted; the source from which obtained; its adaptability to our Southern sections; largely depends the success of the crop. The reputation we have made for selling the very best and highest grade seeds, comes from the fact that we always offer only such seeds as are raised for us by one of the best Cabbage Growers in the United States, and such as we confidently believe can be depended on to produce large, solid heads of the very best quality. Those who have become our patrons for Cabbage seeds, order from us year after year.

We caution our friends against cheap imported seeds—GET THE BEST.

The shortage of the American grown Cabbage crop last year will make reliable Cabbage Seed a little higher, but the best are the cheapest.

Augusta Early Trucker Cabbage.

We claim that this is the best large early Flat Head Cabbage in existence; a variety which will not only produce results in “home gardens,” but will prove of greatest value to the market gardeners of South Carolina, Georgia, Florida and Southern States. It suits all seasons; in fact, no cabbage grown approaches it in so many desirable qualities. Sown in the Spring, it makes the best summer crop. Sown in late summer months, it makes a most reliable Winter cabbage, which will keep through severest cold. Your attention is called to an unsolicited testimonial of one of the largest cabbage growers in the South.

Price: packet, 10 cents; ounce, 35 cents; 4 ounces, $1.00; 8 ounces, $1.75; pound, $3.50.

Improved Sure Head (Stock from the originator.)—Remarkable for its certainty to head. Produces very large, flattened heads, weighing from ten to fifteen pounds; very uniform and firm; a favorite everywhere. Packets, 10 cents; 3 for 25 cents; ounce, 25 cents; 6 ounces, $1.00; pound, $2.50.

Early Jersey Wakefield—Select stock. Market gardeners consider this the best early cabbage, and from our experience we think it fully entitled to its great popularity. The strain of seed sold by us is the best to be had. Heads conical and large for so early a cabbage; hard and solid. Papers, 2 for 5 cents; ounce, 25 cents; 4 ounces, 75 cents; pound, price on application.

CABBAGE—Continued.

Mr. Wm. C. Geraty, Colleton County, S. C., March 5th, 1900, says: “Gentlemen—Your ‘Augusta Early Trucker’ Cabbage that I bought from you stood the freezing weather better than any cabbage I had grown. I have about two acres of them, and do not think the loss from freezing is over five per cent.”
CABBAGE—Continued.

**Danish Ball-Head**—(Seed from Denmark). This variety is a true shipper; grows very close and firm; white and of excellent quality; the best keeper of all Winter sorts. For planting at the end of Spring,

**Danish Ball-Head Cabbage.**

this variety has few equals, as it is remarkably hardy and thrives even on thin soil and upon a high exposed situation. Packet, 10 cents; ounce, 25 cents; 4 ounces, 75 cents; pound, $2.25.

**Improved World Beater (or Autumn King)**—(Stock from the Originator.) It produces more uniformly large heads—hard and solid—than any cabbage known. Sure to head and solid as a rock; fine grained and tender; stalk short. Packets, 10 cents; 3 for 25 cents; ounce, 25 cents; 4 ounces, 75 cents; 6 ounces, $1.00; pound, $2.50.

**Buncombe (N. C.) Winter**—The genuine seed, grown for us especially by an experienced grower in the mountains of North Carolina. Large, firm heads, very hardy; a good keeper; reliable to make solid heads when it is properly treated. For Winter use, sow from March to June; for Spring heads, sow in July, August or September. Packets, 10 cents; 3 for 25 cents; ounce, 25 cents; 4 ounces, 75 cents; pound, $2.50.

**Buncombe (NORTH CAROLINA) Winter Cabbage.**

**Improved Late Drumhead Cabbage.**

**Extra Early Market**—This is the earliest variety of all; the pioneer of early cabbages; the heads are of medium size and oblong. Packet, 10 cents; ounce, 25 cents; 4 ounces, 75 cents; 8 ounces, $1.25; pound, $2.00.

**Early Large York**—Earlier than the two following varieties, but smaller heads. Packets, 2 for 5 cents; ounce, 20 cents; 4 ounces, 60 cents; pound, $1.60.

**Early Winningstadt**—Very early. Heads of good size and solid. Sure headers. Packets, 2 for 5 cents; ounce, 20 cents; 4 ounces, 60 cents; pound, $1.75.

**Improved Early Drumhead**—Later than Early Summer, but at least three weeks earlier than the Late Drumhead. Packets, 2 for 5 cents; ounce, 20 cents; 4 ounces, 65 cents; pound, $1.75.

**Improved Premium Late Drumhead**—Prize stock. Very hardy. Better adapted, we think, than most other kinds for Fall and Winter planting and for Spring use. Very large heads, nearly round. Packets, 2 for 5 cents; ounce, 20 cents; 4 ounces, 65 cents; pound, $1.75.

**Improved Early Flat Dutch**—Very desirable; third early. Two or three weeks earlier than the late variety, which it closely resembles in shape. Packets, 2 for 5 cents; ounce, 20 cents; 4 ounces, 65 cents; pound, $1.75.

**Improved Premium Late Flat Dutch**—Prize stock. One of the most popular of all kinds sold. Grows to very large size; solid, flat heads, often weigh-

ing twenty pounds. Packets, 2 for 5 cents; ounce, 20 cents; 4 ounces, 65 cents; pound, $1.75.

**Perfection Drumhead Savoy**—Heads are large slightly flattened; foliage dark green with coarse wrinkles; short stalk. The best Savoy in existence. Packets, 2 for 5 cents; ounce, 20 cents; 4 ounces, 75 cents; pound, $2.00.

**All Season**—Can be planted for either early or late crops. It is a greatly improved strain of Early Flat Dutch. Heads very large, round, solid and of fine quality, keeping as well as Winter sorts. Remarkable for its ability to stand the hot sun and dry weather. Packets, 2 for 5 cents; ounce, 20 cents; 4 ounces, 65 cents; pound, $2.00.

**Improved Early Summer**—Best second early variety. Heads are very uniform, with few outside leaves. Packets, 2 for 5 cents; ounce, 20 cents; 4 ounces, 75 cents; pound, $2.00.

**Follett’s Brunswiek**—A reliable, popular variety, following Early Summer in maturing. Packets, 2 for 5 cents; ounce, 20 cents; 4 ounces, 65 cents; pound, $2.

CABBAGE—Continued.

Mr. J. L. Dozier, Talbot County, Ga., May 10th, 1900, says: "Gentlemen—The North Carolina Buncombe Cabbage purchased from you capped the climax. I had cabbage in November and December as hard and as fine as any Northern grown. I also had good success with your ‘White Georgia Collard’ Seeds. If people knew the merit of your seeds as I do, you could not supply the demand."
CABBAGE—Continued.

ALL SEASON CABBAGE.

Green Glazed—(Genuine.) Very generally cultivated in South. Not likely to be attacked by bugs and caterpillars. Packets, 2 for 5 cents; ounce, 20 cents; 4 ounces, 75 cents; pound, $2.00.

Red Dutch—For pickling. Packets, 2 for 5 cents; ounce, 20 cents; 4 ounces, 75 cents; pound, $2.25.

KILL THE CABBAGE WORMS.

Hammond's Slug Shot will kill them and every other worm or bug that destroys Vegetables, Melons, etc. Full directions. Safe to use. Price, 1 pound cartoon, by mail, including postage, 30 cents; 5-pound package, by express, 35 cents.

CARROTS.

One of the most valuable root crops for the table, as well as for feeding horses and milch cows. Can be sown from July to October. Light, deep, sandy loam is the best. One ounce will sow 100-feet drill; four pounds to the acre. The following are the best varieties:

DANVERS HALF-LONG CARROTS.

New Chantenay—Deep scarlet.
Improved Long Orange.
Scarlet Short Horn.

DUNES CARROT, of the new Chantenay type. A deep scarlet root, with a well-marked tapering end.

CELEB, the Large varieties Transplant generally. One ounce, 10 cents; 4 ounces, 20 cents; pound, 60 cents. If by mail, add 10 cents per pound.

Large White Belgian—The great stock food of Europe. Enormously productive and nutritious; splendid keepers. Packets, 5 cents; ounce, 10 cents; 4 ounces, 20 cents; pound, 40 cents. If by mail, add 10 cents per pound.

SCARR'S FRUIT PRESERVING POWDER.

With this you can preserve Fruit and Vegetables with the natural taste unimpaired. Air tight cans are not essential. Each box preserves twenty pounds fruit. Price, 1 box, 25 cents; 5 boxes, $1.00, by mail, postpaid.

CAULIFLOWER.

Succeeds well, especially in the States bordering on the Gulf. Sow from July to October. Transplant in wet weather to very rich soil and cultivate early and often. Requires plenty of moisture when heads begin to form. One ounce for 5000 plants. Best varieties are:

Extra Early Snowball—Packet, 15 cents; ¼ ounce, 75 cents; ounce, $2.50.
Extra Early Erfurt—Packets, 2 for 5 cents; ½ ounce, 60 cents; ounce, $2.00.
Early Paris—Packets, 2 for 5 cents; ½ ounce, 60 cents; ounce, $2.00.

This delicious vegetable is not cultivated as generally in the South as it should be. It is a successful crop here, and pays handsomely.

CULTURE—For early transplanting, sow in May or June; for later crop, in August or September. Soil should be rich and deep, and plants in rows three feet apart, six to eight inches in row. Plants should be set when about six inches high. Celery requires moisture; keep well watered. Blanch by earthing up when large enough. One ounce will make about 5000 plants.

Alexander's White Plume—A good kind, requiring but little banking up to Blanch. For earliness this is the best. Packets, 2 for 5 cents; ounce, 25 cents; ½ pound, 65 cents; pound, $2.00.

Large White Solid—A solid, crisp variety; the most generally cultivated for market use. Packets, 2 for 5 cents; ounce, 20 cents; ½ pound, 65 cents; pound, $1.75.

CELERIES—Continued.

ALEXANDER'S WHITE PLUME CELERY.

Mrs. Jack Fletcher, Irwin County, Ga., February 16th, 1900, says: "Gentlemen—I planted the 'Augusta Early Trucker' Cabbage Seed last year. They were the finest cabbage I ever saw. You shall have our continued patronage."
CELERIAC—Continued.

Boston Market.—A favorite here, and remarkable for its tender, succulent stems and mild flavor. Packets, 2 for 5 cents; ounce, 20 cents; ½ pound, 65 cents; pound, $1.75.

Golden Self-Blanching.—Solid, crisp and brittle; compact in growth; self-blanching to a large extent; is early and grows to a large size. Papers, 2 for 5 cents; ounce, 25 cents; 4 ounces, 75 cents; pound, $2.00.

Pink Plume.—(Henderson’s). A new variety, crisp and rich in flavor. Packet, 10 cents; 3 for 25 cents; ounce, 30 cents.

New Giant Paschal.—Stalk very solid, crisp, tender and of rich flavor. Bleaches easily. This variety is of wonderful keeping qualities, and is comparatively rust proof. Packet, 5 cents; ounce, 25 cents; ½ pound, 75 cents; pound, $2.00.

CELERIAC.

Turnip Rooted Celery.— Produces turnip-shaped roots which may be cooked and sliced and used with vinegar, making a most excellent salad.

Perfekt Giant.—Packet, 5 cents; ounce, 25 cents; ½ pound, 75 cents.

Large Smooth Prague.—Packet, 10 cents; ounce, 30 cents; ½ pound, $1.00.

COLLARDS.

This is peculiarly a Southern vegetable, and is highly prized by the people of this section, where it is used as greens. It is a sure cropper, and yields abundantly. Collards also make an excellent feed for stock.

WHITE GEORGIA COLLARD.

Improved White Georgia—Called Cabbage Collard on account of its close-bunching growth and light green leaves resembling the cabbage—combining the hardiness and reality of the collard with the whiteness and crispiness of the cabbage. A great improvement over the old Long Green. You will never know how good a collard can be until you use this seed. Try it. Packet, 10 cents; 3 for 25 cents; ounce, 15 cents; 4 ounces, 40 cents; 8 ounces, 65 cents; pound, $1.

True Long Georgia.—The old-fashioned variety; much esteemed, but does not compare with the “White Georgia.” Packets, 2 for 5 cents; ounce, 10 cents; 4 ounces, 25 cents.

CORN SALAD.

Makes a delicious salad. Sow in Spring or Autumn in drills one foot apart. One ounce to 60-feet drill.

Broad Leaved.—Packet, 2 for 5 cents; ounce, 10 cents; 4 ounces, 30 cents; 8 ounces, 50 cents.

PRICE OF SEEDS IN PACKETS.

Those priced at 2½ cents each are 2 for 5 cents, 25 cents per dozen, or 60 packets for $1.00, assorted kinds if you want them. Those priced in 10 cents packets are 3 for 25 cents; 15 packets for $1.00, postpaid.

GARDEN CORN.

We can supply the Evergreen Sweet, Country Gentleman Sweet, Mammoth Sugar and Adam’s Early for late planting. Half pint, 15 cents; pint, 20 cents; quart, 35 cents, postpaid.

FIELD CORN.

The following varieties are planted with success by many for late crops:

Coke’s White Prolific.—(Southern.)

Mount’s White Prolific—(Northern.)

Champion Early Yellow Dent.

Golden Beauty and Snowflake.

Price, 1 quart, 15 cents; 4 quarts, 30 cents; peck, 50 cents; bushel, $1.50. One quart by mail, 30 cents, postpaid.

ENDIVE.

One of the best salads. Can be sown from Spring until October. Drill seed and thin to six or eight inches apart. When leaves are full size tie up to Blanch. One ounce sows 15 feet drill and will produce about 5,000 plants.

Green Curled.—Leaves dark green, broad and curly; tender and crisp in quality; somewhat earlier than other varieties. Packets, 2 for 5 cents; ounce, 20 cents; 4 ounces, 50 cents; pound, $1.75.

KALE, OR BORECOLE.

Makes excellent greens for Winter and Spring use; much more tender and delicate than cabbage. Improved by being touched by frost. Can be sown as late as October. Sow in beds and transplant, as you would Cabbage.

EXTRA CURLED GERMAN KALE.

Mrs. H. C. Stringfellow, Red River County, La., February 27th, 1900, says: “Gentlemen—I bought seed of you last season, and am so delighted that I shall always patronize your house.”
LEEK.

Sow in Spring or early Fall, in drills six inches apart; thin to 2 inches. When six or eight inches high, transplant in rows twelve inches apart; put as deep as you can without covering the centre leaves. Can also be sown in the Fall. One ounce seed to 100 feet of drill.

Mammoth American Flag—A popular sort; very hardy. Packets, 2 for 5 cents; ounce, 20 cents; 4 ounces, 50 cents; pound, $1.60.

LETTUCE.

Can be planted with success nearly every month in the year in the lower Southern States, and in this section as late as October. Plants should be protected in severe weather. Ounce will produce about 2,000 plants.

Note.—Every particle of Lettuce Seed sent out by us has been thoroughly tested as to germination, and will certainly grow if given proper attention. This seed, however, often mildews from too much damp in the soil, which causes many failures, when it is no fault of the seed.

Denver Market—Large, solid heads; good light green color; slow to seed; leaves beautifully marked; a very fine variety. Packet, 10 cents; ounce, 20 cents; 4 ounces, 60 cents; pound, $2.00. (See cut.)

Improved Royal White Cabbage—Heads large; very showy; leaves broad. Packet, 5 cents; ounce, 20 cents; 4 ounces, 50 cents; pound, $1.50. (See cut.)

10 CENTS for packets our Bon Air Ruta Baga, by mail, postpaid. This is the best Ruta Baga ever planted. TRY IT.

Wonderful Lettuce—This is a new variety, and is said to be the largest of all Cabbage Lettuces; very tender and crisp; is one of the best all-round lettuces we have. It will do well if planted most any month. Try it. Packet, 10 cents; ounce, 25 cents; 4 ounces, 75 cents, postpaid.

White Cabbage or Butter—The standard sort. It is early; forms a beautiful, solid head; crisp and tender. Packets, 2 for 5 cents; ounce, 10 cents; 4 ounces, 30 cents; pound, $1.00.

Trianon, or Celery Lettuce—New variety from France. Head long, conical and very large, having a crispness, tenderness and flavor peculiarly its own. When plant matures, tie up to Blanch. Packet, 10 cents; ounce, 20 cents; 4 ounces, 50 cents; pound, $1.75.

Henderson's New York—(Genuine Stock.) Large, solid, crisp, tender and excellent flavor; blanches itself. A great favorite here. Packet, 5 cents; ounce, 20 cents; 4 ounces, 50 cents; pound, $1.75.

IMPROVED ROYAL CABBAGE LETTUCE.

Early Hanson—One of the best for heading; large, tender and crisp; stands summer well. Packets, 2 for 5 cents; ounce, 10 cents; ½ pound, 30 cents; pound, $1.50.

Tennis Ball Lettuce—Favorite for forcing. Makes fine heads and few outer leaves; can be planted close under glass. Hardy and crisp. Packets, 2 for 5 cents; ounce, 10 cents; ½ pound, 30 cents; pound, $1.50.

NITRATE OF SODA is just the thing to put on Lettuce as a top dressing when the plants are about three inches high. It stimulates the growth and makes the Lettuce crisp and tender. We can furnish this in large or small quantities.

Big Boston Lettuce—Identical shape, size and general appearance of the Boston Market, but double the size. Heads well at all seasons. Very crisp and tender. Packet, 10 cents; ounce, 25 cents; 4 ounces, 75 cents; pound, $2.00.

Black Seeded Simpson Lettuce—This variety is said to be of unusual merit for home gardens and the best for market gardeners. Stands the summer heat splendidly. Packets, 2 for 5 cents; 1 ounce, 10 cents; ½ pound, 40 cents.

Mr. C. B. Wimbish, Caddo Parish, La., May 27th, 1900, says: "Gentlemen—it is a real pleasure to pay for your seeds, as they have always been found perfectly sound and true to the variety."
MUSHROOM SPAWN.

Mushrooms can be easily and successfully grown to perfection in ordinary cellar, wood-shed or barn. We call special attention to the subject, as it is being much discussed in the South, and there are many engaging in its culture, both for pleasure and profit. The Spawn is sold in bricks of about a pound and a quarter each, and directions for planting and culture will be sent with each purchase. One brick is enough for four or five feet.

*English Mill Pack Spawn* — 1 per brick, 1½ pounds, 20 cents; if by mail, 30 cents, postpaid. Ten bricks, $1.50. Special prices in large quantities. Directions for cultivation accompanying each order for Spawn.

“BUG DEATH” kills the Potato Bug, and Bugs, Worms and Insects on Cabbage, Beans, Squash, Watermelon and other crops. Price, pound, 15 cents; 3 pounds, 35 cents; 5 pounds, 50 cents; 12½ pounds, $1.00, not prepaid.

MUSTARD.

Largely grown in the South. Used the same as spinach, or boiled with meat for greens; makes a popular dish. Sow in the fall, winter or spring in rows six inches apart. Sow 1 ounce to eighty feet of drill. The following are the best varieties:

- New Chinese—This new and highly esteemed variety has gained much popularity by its extra large leaves and hardiness, also sweetness. Packet, 5 cents; ounce, 10 cents; ½ pound, 25 cents; ½ pound, 40 cents; pound, 75 cents.

SMALL ORDERS receive the same prompt careful attention as large ones do. Whether in want of a single packet of seed or a large quantity, send us your order.

NEW CHINESE MUSTARD.

- Giant Curled Southern or Creole—Very popular in all sections of the South. Papers, 2 for 5 cents; ounce, 10 cents; ½ pound, 20 cents; pound, 50 cents.
- White or English Mustard.
  - Brown Mustard—Either of the two last in papers, 2 for 5 cents; ounce, 10 cents; ½ pound, 15 cents; pound, 40 cents, postpaid.

ONION SEED.

We give the most critical attention to the quality of Onion Seed sold by us. Those buying from us will not have disappointment, either as to germination or definite variety. Soil for Onions should be a deep, rich loam. A rich, sandy soil is also good. Large Onions can be made the first year from seed, by sowing the Spanish and Italian varieties in August and September, setting them out when the open season comes on, in rows twelve to eighteen inches apart, four to six inches in drill. Ounce of seed will sow 100-feet drill; five to six pounds to acre. To make sets, forty to fifty pounds to acre. Packets, any variety, 2 for 5 cents.

Spanish and Italian Varieties.

- Mammoth Silver King—Very fine. Grows to large size, often weighing two pounds and over, snowy white. Ounce, 20 cents; 4 ounces, 75 cents; pound, $2.
- Prize Taker, or Spanish King—This is a beautiful straw-colored Onion, which grows to an immense size. Ounce, 20 cents; 4 ounces, 75 cents; pound, $1.75.
- White Bermuda—This Spanish variety is of great popularity in the South. Shape oval; early and of mild flavor. Ounce, 20 cents; 4 ounces, 75 cents; pound, $2.50.

Mr. D. H. Taylor, Aiken County, S. C., May 26th, 1900, says: “Gentlemen—The 'Bug Death' is the best thing I ever tried for bugs on potatoes. It has got the right name, for it is death to all bugs. It gets away with them at once.”
ONION SEED—Continued.

Giant White Tripoli—Large beautiful shape, with fine white skin. Ounce, 20 cents; 4 ounces, 70 cents; pound, $2.00.

Giant Red Tripoli—Rich red color, otherwise similar to the white. Ounce, 20 cents; 4 ounces, 70 cents; pound, $2.00.

American Varieties.

Extra Early Bloomsdale White Pearl—(Genuine). Very early; flat shape; delicate pure white. Ounce, 25 cents; 4 ounces, 85 cents; pound, $3.00.

Weathersfield Red—Very productive and keeps well; large size and fine flavor. Ounce, 15 cents; 4 ounces, 40 cents; pound, $1.25.

Yellow Globe—Is considered the most profitable for market. Early and keeps well. Ounce, 15 cents; 4 ounces, 40 cents; pound, $1.25.

White Silver Skin—More sought for and most desirable for family gardens. Silvery white; delicate flavor. Ounce, 20 cents, 4 ounces, 65 cents; pound, $2.

We seek your patronage and know that we can please you. Try us.

ONION SETS.

Write us for bushel prices on Onion Sets and Shallots. Small lots can be sent by mail with safety. One quart will plant 20-feet drill; five to eight bushels to the acre. Fall planting of Onion Sets are becoming very successful in the South, and should be more largely adopted.

EXTRA EARLY WHITE PEARL ONIONS.

'Extra Early Peer'—These we furnish only from September to November. Should not be planted later than November 15th. Quick to mature; at least six weeks before ordinary kinds. Quart, 25 cents; peck, $1.50. If by mail, add 10 cents quart for postage.

White Silver Skin—Quart, 15 cents; 2 quarts, 25 cents; peck, 75 cents. If by mail, add 10 cents quart for postage.

Red Weathersfield—Quart, 15 cents; 2 quarts, 25 cents; peck, 90 cents. If by mail, add 10 cents quart for postage.

Red Multiplying Shallots—We can furnish these from August to November. Quart, 10 cents; peck, 75 cents. If by mail, add 10 cents quart for postage.

Miss Mary B. Sealey, Robinson County, N. C. January 12th, 1900, says: "Gentlemen—For the last five years I have bought all my seeds from you, and they have proved to be the finest that were sold in this section. I showed my friends what a fine crop of 'Bou Air Ruta Bagas' I had, weighing from two to five pounds."

RAPE, OR GEORGIA SALAD.

Sow tolerably thick in drills as early as possible to the Spring as you can, in rows eighteen inches or two feet apart, in well prepared and rich soil; when six or eight inches high, thin out enough for a "boiling" every day or two, leaving a stand in the rows. When twelve inches high cut off about six inches above the ground and use the tops; when you finish your last row, you may go back and cut again, as it grows very rapidly. It may be sown also to advantage in August and September for Fall Salad. Papers, 2 for 5 cents; ounce, 10 cents; ½ pound, 25 cents; pound, 40 cents.

Mr. Thos M. Hindman, Winston County, Miss. February 20, 1900, says: "Gentlemen—I have planted your seeds for years, and am well pleased with them."

PEAS—For Late Crop.

For succession of crops, Peas can be planted every two weeks from January to August. Last seed should be of our Premier Extra Early. For November and December planting, the Marrowfats do best. Quart will plant 100-feet of drill; two bushels to the acre.

Premier Extra Early.

McLean's Little Gem.

Tom Thumb.

Champion of England.

Cutter's Stratagem.

White Marrowfat.

We will mail either variety, except Marrowfat, and they are 5 cents cheaper, postpaid. Peck, 1½ pint, 15 cents; pint, 25 cents; quart, 40 cents. Peck and bushel prices on application.

Sur ban's Market Garden—A wrinkled pea; dwarf in habit and wonderfully productive; very large pods and very early. Packet, 5 cents; ½ pint, 20 cents; pint, 30 cents; quart, 45 cents, postpaid. Peck, $1.25. Bushel prices on application.

10 CENTS For packet our Augusta Early Trucker Cabbage, by mail, postpaid. This is one of the best Winter cabbages. A reliable header and a good keeper. Try it.

SEED POTATOES.

We will be glad to correspond with those wanting to plant potatoes for late crop. The varieties we offer are especially adapted for this purpose, and should be planted in July or early in August.

"Early Harvest"—A wonderful producer.

Native Bliss Triumph—Very popular.

SALSIFY, Or Oyster Plant.

A delicious vegetable, which ought to be more largely cultivated. When properly prepared is very much in taste and flavor of the oyster. Sow in Fall, not later than the middle of October, in drills ten inches apart, and thin out three to four inches in the row. Soil should be light and deep. Ounce will sow 50 feet of drill. Mammoth Sandwich Island—(New). Of much larger size than the old kinds, and of superior quality; grows quickly. Packets, 2 for 5 cents; ounce, 15 cents; 4 ounces, 40 cents; pound, $1.25.
RADISH.

This is a very popular vegetable. To be tender and crisp, radishes must be grown quickly; quick growth requires rich, mellow soil and reliable seeds. To have a constant supply, a new sowing should be made every ten days from early Spring. For first sowing plant All Seasons, Non Plus Ultra, Early Scarlet Turnip, Early French Breakfast, White Vienna, Early Long Scarlet and 1 lb. Globe. For late sowing, sow in August, September or October, All Seasons, Non Plus Ultra, White Vienna. Strasbury, Black Spanish and Chinese Rose varieties. One ounce will sow fifty feet of drill, five to eight pounds to the acre.

Any of the following varieties, except Non Plus Ultra and All Seasons and Scarlet or Cardinal; in papers, 2 for 5 cents; 25 cents per dozen.

Alexander's All Seasons—This is a new variety; we saw them on the testing grounds last year, and were superior to all others. It is a bright cherry red globe. Its name will indicate that it can be planted early and used at any season. Packet, 5 cents; ounce, 10 cents; ¼ pound, 35 cents; ½ pound, 50 cents; pound, 75 cents.

Non Plus Ultra—This is a turnip-shaped and fine round form; bright scarlet color of tender flesh and delicate flavor. Its remarkably quick growth and very short top renders it one of the best for forcing. Eighteen days to maturity. Packet, 10 cents; ounce, 15 cents; ¼ pound, 35 cents; pound, 90 cents.

Early Scarlet Turnip—Small top; quick growth; crisp and mild. Ounce, 10 cents; ¼ pound, 20 cents; pound, 50 cents.

Early Long Scarlet Short Top—A popular variety; short top and brittle. Ounce, 10 cents; ¼ lb., 20 cents; lb., 50 cents.

French Breakfast, Scarlet Olive Shaped—Early and desirable variety, very tender. Ounce, 10 cents; ¼ pound, 20 cents; pound, 50 cents.

Long White Vienna, or Ladies Finger—This new Radish is one of the best in cultivation. Beautiful shape, snow white; crisp and of rapid growth. Ounce, 10 cents; ¼ pound, 25 cents; pound, 65 cents.

Improved Chartier—A handsome variety, which grows to a large size without becoming pithy. Ounce, 10 cents; ¼ pound, 25 cents; pound, 65 cents.

Mr. R. J. Boyd, Montgomery County, Ga., February 2d, 1900, says: "Gentlemen—Your 'Bon Air Bota Bagas' are the best I ever ate."

Spokesmen's and Market Gardeners

wishing Cabbage, Peas, Beans, Ruta Bagas, Beets, Carrots, Lettuce, Radish and other seed in quantity, we would be pleased to quote them. In writing for quantity prices, please mention variety of articles wanted with quantity desired.

Chinese Rose—(Winter). Considered the best for Winter; shaped conical and smooth; rose colored. Ounce, 10 cents; ¼ pound, 25 cents; pound, 65 cents.

Black Spanish Round—(Winter). This variety stands cold well; grows to a large size and of firm texture. Ounce, 10 cents; ¼ pound, 25 cents; pound, 75 cents.

Golden Globe—(Fine for Summer). The best Summer Radish. Flavor mild; keeping long in eating condition; 25 days to maturity. Ounce, 10 cents; ¼ pound, 25 cents; pound, 65 cents.

Scarlet, or Cardinal Globe—One of the earliest of Radishes; tops small, color bright red; very attractive; flavor mild, crisp and tender; is a good market Radish. Packet, 5 cents; ounce, 10 cents; ¼ pound, 25 cents; pound, 65 cents.

CHINESE ROSE RADISH.

SPINACH.

A good crop for market gardeners, and finds a ready place in all our gardens. It is more tender and succulent when grown in rich soil. Best sown from September to March. Don’t sow in dry, hot weather. A seed requires moisture and cool nights to make them germinate. One ounce will sow 150 feet drill; fifteen to twenty pounds to the acre.

Bloomsdale Savoy—Leaf wrinkled and large. A great favorite. Papers, 2 for 5 cents; ounce, 10 cents; ¼ pound, 20 cents; pound, 40 cents.

Broad Leaved Flanders—A standard variety and largely grown. Papers, 2 for 5 cents; ounce, 10 cents; ¼ pound, 20 cents; pound, 40 cents.

Ever Ready—(Long Standing). A new variety of superior quality. A decided acquisition. Papers, 2 for 5 cents; ounce, 10 cents; ¼ pound, 20 cents; pound, 50 cents.

TURNIPS.

We sell only choicest American grown Turnip seed to be had, and will not knowingly offer for sale any other breed of cheap imported seed, from which only small inferior roots will come. Two ounces will sow 150 feet of drill; two pounds in drills to an acre.

We furnish all varieties (except our Bon Air Ruta Bagas, Extra Early Purple Top, White Milan, Early White, Snow Ball [winter], and Scarlet Kashmir in packets, 2 for 5 cents; 25 cents per dozen, postage included. Two ounces, 10 cents; 4 ounces, 15 cents; 8 ounces, 25 cents; pound, 40 cents. If by mail, add 5 cents for 8 ounces; 10 cents per pound postage.

TURNIPS—Continued.
TURNIPS—Continued.

Extra Early Purple Top Milan—One of the most desirable for early planting. Tops are very small, distinctly strap-leaved, and growing very erect. The roots are small and flat, skin purple on top of the root and white below; flesh clear white; a very shy seeder. Fine for table or market. Packet, 5 cents; 2 ounces, 15 cents; 4 ounces, 20 cents; 8 ounces, 40 cents; pound, 65 cents.

New Extra Early White Milan—In this new sort the extreme earliness, small top and tap root of the Purple Top Milan is united with clear white skin and flesh, making it a very desirable market kind. Packet, 5 cents; 2 ounces, 15 cents; 4 ounces, 25 cents; 8 ounces, 45 cents; pound, 75 cents.

We would be pleased to make Special Prices to those wishing Turnips or other Seeds in large quantities. In writing kindly state amount desired.

Early White Flat Dutch—Strap-leaved; old favorite kind; medium size; white; quick in growth.
Early Red Top Strap-Leaved—This variety has the form of the White Flat Dutch, but top is purple; grows larger and more desirable.
Red or Purple Top Globe—We recommend this variety very highly. Shaped like the White Globe; of better eating quality; fine for stock.

Mr. A. T. Hall, Hall County, Ga., April 10, 1900. says: "Gentlemen—I have been using your seeds for nine years, and find them far superior to any I have used."

Mammoth Purple Top Globe—The party from whom we have this variety says of it: "It is the quickest growing, largest and most solid white-fleshed turnip known."

White Norfolk—An old favorite; large and skin white below surface, but sometimes greenish above.

SCARR'S FRUIT PRESERVING POWDER.

With this you can preserve fruit and vegetables with the natural taste unimpaired. Air tight cans are not essential. Each box preserves 20 pounds fruit. Price, 1 box, 25 cents; 5 boxes, $1.00, by mail, postpaid.

Early White Egg—A very desirable kind; early tender and crisp; in shape resembles an egg.

Early Snowball Turnip—A most beautiful medium sized, round, pure white variety, of excellent flavor. For early sowing this is one of the best, being crisp, tender and sweet, maturing in six weeks from time of sowing. Packet, 5 cents; 2 ounces, 15 cents; 4 ounces, 25 cents; 8 ounces, 40 cents; pound, 75 cents.

Mr. J. A. H. Welch, Burke County, Texas, January 29th, 1900, says: "Gentlemen—I send for your seeds because they always give better results than any I ever tried."

The Callaway—A Georgia winter variety; grows to a large size; round; white flesh; splendid keeper. Delightful for eating, and one of the best for stock.

TURNIPS—Continued.

Mr. J. Z. Johnson, Newton County, Ga., January 15th, 1900, says: "Gentlemen—I planted some 'Bon Air Ruta Baga' seed on the 24th of last July and made some turnips weighing 6½ pounds. The whole lot averaged over 5 pounds. There will be quite a demand for your 'Bon Air' seed this summer."
TURNIPS—Continued.

CALLAWAY OR GEORGIA WINTER TURNIP.

Cow Horn—Long white; flesh white, fine grained and sweet; one of the best for cooking; also highly recommended for stock.

Mr. D. M. Piercy, Freestone County, Texas, June 8th, 1900, says: "Gentlemen—Turnip seed purchased from you last year proved far superior to that of other houses. I grew 'Mammoth Purple Top Turnip' to average five pounds.

Southern Seven Top—For greens; old well known kind; stands severest Winters and heads out beautifully in early Spring. Georgia raised seed.

Sweet German or Rock—Flesh white, solid and well flavored; a good Winter keeper.

Yellow Varieties.

Purple Top Aberdeen—Roundish in shape, purple on top and deep yellow below.

Amber Globe—A well-formed, productive variety.

Yellow Globe—Color pale yellow, green top.

Golden Ball—This is the most delicate and sweetest yellow fleshed turnip.

Nitrate of Soda

Improves the growth of Turnips. We can supply in any quantity. Write for prices.

SPECIAL SUMMER OFFER. 1900.—The 4 for 25 cents. We will send by mail, postpaid, a ten cent packet each. Early Snow Ball Turnip, Georgia Collard, Bon Air Ruta Baga and Augusta Early Trucker Cabbage for 25 cents.

Mr. P. J. Sharky, Richmond County, Ga., April 26th, 1900, says: "Gentlemen—The 'Bon Air Ruta Baga' Seed that I bought from you produced the largest and sweetest Ruta Baga that was sold on the market. They also stood the Winter excellently. Will double my crop in 'Bon Air's' this year."

RUTA BAGAS, OR SWEDES.

Our Improved Bon Air Ruta Baga has become very popular in every part of the South. A very distinctive variety, which combines the useful qualities of the old kinds, and, in addition, is so much better for the Winter table that there is no comparison. It is a purple top, flesh of a light yellow, fine grained and solid. Early to mature, and grows to a large size. We want our patrons to try this splendid variety upon our recommendation. We unquesionably pronounce it the best Ruta Baga for table and stock in existence.

Read what others say about this fine Ruta Baga. Packet, 10 cents; 2 ounces, 15 cents; 4 ounces, 20 cents; 8 ounces, 35 cents; pound, 60 cents. If by mail add 5 cents for ½ pound, 10 cents per pound, for postage.

OUR IMPROVED "BON AIR" RUTA BAGA

Improved Purple Top Ruta Baga—Very choice stock; the same strain as sold by us for years, which has always given satisfaction. We cannot recommend this seed too highly.

White Ruta Baga, or Russian—While not as popular as the above, it is preferred by some on account of its mild, sweet, table qualities.

Our $1.00 SUMMER SEED COLLECTION...

1 qt. Extra Early Pearl Onion Sets.
1 pkt. Augusta Trucker Cabbage.
2 ozs. Bon Air Ruta Bagas.
2 ozs. Mammoth Purple Top Turnip.
1 oz. our Eclipse Beets.
1 oz. Alexander's All Seasons Radish.
1 pkt. Lazy Wife Pole Snap Beans.
½ pt. Extra Early Refugee Beans.

The above collection will make a neat kitchen garden. Worth $1.40; sent prepaid, for $1.00.

ROFFE—For tying up plants, celery, lettuce and bunching asparagus; a very serviceable article. Pound, 25 cents; 5 pounds and over, at 22 cents per pound. Write for prices in large quantity.
There is not a more satisfactory and remunerative crop to the farmer than Grasses and Clovers. Almost any of our lands can be brought up to such a condition as will sustain Grasses, and with subsequent proper care and attention, keep them in paying condition for years. We cannot too strongly urge upon our friends the desirability of adding Grasses and Clovers to their farms. Our conviction is that more and better grasses can be grown here in the South than elsewhere, and that crops for hay and pasturage will pay more bountifully than any other crops that can be planted.

We keep in stock seeds of all the leading varieties of Grasses and Clovers; these are mentioned with special directions for use of each, as herein named. There are other varieties not named, and not kept in stock, that can be gotten as desired; of these we will be glad to correspond, giving all the information in our reach on inquiry from any of our correspondents.

Small lot of Grass Seed for Trial. We have given prices in small quantities so that those wishing to make a trial can order and have sent by mail. Write for peck and bushel prices.

Preparation of Land—Free the land of all stumps, stones, etc., break well and deep; harrow and cross harrow, and roll till free from all clods; broadcast manure freely and plough and harrow it in. Stable and cow-lot manure, phosphate and cotton seed and kainit are appropriate applications. Good implements are important to economical sowing and harvesting. A roller is very valuable both in preparing land and sowing Seed. Most grass seeds are very fine, and bear the least of covering in. The roller alone is better for those than the lightest harrow or brush. It presses them in the fresh soil, which is the best for a good catch.

HAVE YOU ... A LAWN?
Or do you wish one?
If you have a lawn you can improve it, or if you wish to make one, you can do so by using OUR
Evergreen Lawn Grass Seed. See description and prices on page 18. Ground Bone Meal is a fine Fertilizer for Lawns, we sell it.

GRASSES AND CLOVERS—Continued.

Selection of Seed—Select seed with reference to the purpose in view, whether for hay alone, pasturage alone, or for both hay and pasturage; and also with reference to character of the land. In nearly all cases mixtures of grass seeds or grass and clover seeds, are recommended rather than sowing of any one kind alone. For permanent pastures, several kinds must be mixed to furnish some growth for all seasons of the year. For hay and pasturage, mixtures such as come well together are more profitable than one kind alone.

Seeding Per Acre—Our own observation prompts us to advise heavy seeding here in the South. There is safety and security in a heavy catch, and such as will survive the first summer when thin seeding would be entirely obliterated. The greatest cost in grass culture is the careful preparation and manuring of the land. The additional expense of a liberal seeding rather than a meager one ought not to deter one who is willing to assume the first cost and wait for the results. A fair trial is not made in the South unless the land is well filled with seed to make a close sod from the beginning.

Mr. W. A. Pullin, March 31, 1900, Bienville Parish, La., says: "Gentlemen—The seeds I ordered from you last fall are all O. K. I have the finest pasture in this district. My neighbors are perfectly carried away with it."
GRASSES AND CLOVERS—Continued.

BOKHARA CLOVER (Melilotus Alba.)

**Time of Sowing**—Grasses that grow in the Winter may be sown in the Fall or early Spring. Those which are strictly Summer growers should be sown in Spring, after severe weather is over. Fall sowing is to be preferred for all cases in which it is a proper time, because the young grass is not liable to be choked out by weeds and grasses that are indigenous to our soils. Therefore we strongly advise sowing in the Fall. Although you may be ready to sow in Spring, we believe it a safer course to sow the land in peas and let it lie over, and put the grass seed down in September and October. Lucerne or Alfalfa is the only exception we know to this rule. Sown in February, its growth being upright, it gets ahead of weeds and holds its own very well. Some of the best results we have seen from it were from February seeding in drills. If it is to be put in broadcast, then September and October are better times for it.

20—When ordering kindly send us the names of such of your neighbors who plant seeds, and would like to have our catalogue.

**Sowing of Seed**—In Fall seeding, it is not uncommon to sow grass with oats or wheat. We do not recommend this, but it is admissible and may be entirely successful if the land is rich enough to give liberal support to both grass and grain. But grain ought to be seeded more thinly than if there were no grass to be sown with it. Sow the grain first and plow or harrow it in, then sow the grass seed and harrow or roll the land.

To get more uniform distribution it is well to sow one-half of the seed one way, and then cross-sow with the other half.

**Scarr's Fruit Preserving Powder.**

With this you can preserve Fruit and Vegetables with the natural taste unimpaired. Air tight cans are not essential. Each box preserves 20 pounds fruit. Price, 1 box, 25 cents; 5 boxes, $1.00; by mail, postpaid.

In mixed seeding, as Clover, which weighs 60 pounds per bushel, with Orchard or Red Top Grass, both of which weigh fourteen pounds, it is well to sow the light and heavy seeds separately. In scattering seed with the hand, if some are heavy and some light, the heavy seeds will be thrown much wider than the light. On well prepared soil, surface sowing and rolling is the safest.

Clover, Lucerne, Johnson, Rescue and others of the larger grasses will bear light harrowing or brushing in. Blue Grass, Red Top and other of the finer seeds are better surface sown, with or without the roller.

**HAVE YOU A PASTURE?**

Or, do you wish one?

If you have a pasture, you can improve it; or if you wish to make one, you can do so by using Our Special Mixture for Hay and Permanent pasture. See description and prices on page 19.

Cahoon Seed Sowers Are advised in sowing Grass Seed and Clover. Sows from 4 to 8 acres per hour. Write to us for them.

**Prices of Grass Seeds**—On account of constant changes in price, we cannot give bushel or quantity prices of these seeds in advance. All applications will be promptly answered, and all orders filled with the best and freshest seeds obtainable.

**ANNUAL CRIMSON CLOVER.**

Annual Crimson Clover (Trifolium Incarnatum)—Also called Scarlet Clover, Italian Clover, German Clover. This clover will be very scarce and, therefore, a reliable seed will be higher than usual. Reports from different sections of country show that very little Crimson Clover was grown for seed. There will be a great deal of cheap seed which will not germinate. We warn our customers against such. We bought our Crimson Clover and tested it, and found the germination of the best. We bought this year the best Crimson Clover offered. We consider this clover of inestimable value as a good Winter and early Spring pasture for all kinds of stock—in addition a crop of from two to three tons of hay can be cut per acre. It is a most nutritious food, and does not sili-
GRASSES AND CLOVERS—Continued.

vate as other Clovers do. It is a great enricher of the soil. It will grow on land so poor that other Clovers would do but little on. The heads are very large and of deep crimson color. Sow between cotton rows in

keeping up a good stand. No matter how mismanaged clover is a benefit, and whatever else he may do, the farmer who sows clover is making his farm better.

If the land is barren, and then the corn crop following will make you happy. If you want to make rich farms and make money, grow clover, corn and hogs. It should be sown alone or with grain, in the Fall or Early Spring months, and is frequently used in combination with Orchard and Red Top Grass, as they flower and are ready to cut about the same time. Weights sixty pounds to the bushel. Fifteen to twenty pounds will seed an acre. Pound, 15 cents. By mail, pound, 25 cents; 4½ pounds, $1.00, postpaid.

White Clover (Trifolium Repens)—This is a smaller growth than the Red, and is an essential constituent of every pasture, and all cattle relish it; is of special value in fattening sheep. It is advisable to combine Perennial Rye with other grasses in making a pasture. Largely used in making "Lawn" mixtures, and is highly esteemed as pasture for bees. Weights six pounds to the bushel. In Fall or Spring, twelve pounds to the acre. Pound, 25 cents; by mail, 35 cents; 3 pounds, $1.00, postpaid.

Schroeder's Grass (Bromus Unioloides)—Called Rescue Grass; is one of the best Winter grasses; very satisfactory and makes good hay. Produces abundantly when sown on rich and not too heavy soil. Sown in September it is often ready to cut in February, and may be cut once or twice more before June; or you may pasture it, taking stock away in time to allow seed to mature and re-seed itself. We would advise that this grass be allowed to shed one crop of seed before either cutting or pasturizing. Sow in early Fall or Spring, twenty-five or thirty-five pounds to the acre. Pound, 25 cents. By mail, pound, 35 cents; 3 pounds, $1.00, postpaid. Write for prices in large quantities.

Hairy or Sand Vetch (Vicia Villosa)—Is an annual, similar in growth to a very slender and straggling pea vine. Vines often ten to twenty feet in length, and covering the ground to a depth of two feet with dense mass of foliage. Planted in August, September or October, it should furnish good grazing from January to May; then allow to re-seed itself. Bears the heaviest frosts. Too much cannot be said about this as a valuable crop for hay or pasture, as the yield is double that of any other hay crop grown under similar circumstances. Hairy Vetch is a feeder of the soil, as it is a nitrogenous plant, and one of the excellent qualities of this Vetch is, it will grow on poorer soil than any other crop, and is easily eradicated, if desired. The universal success which had been attained in the past season with Hairy or Sand Vetch, will make this one of the most popular pasture or hay crops. If you have not tried this valuable crop it cannot pay you to do so. If you have tried it, double your crop. Weights sixty pounds to the bushel. Sow one bushel to the acre. Pound, 15 cents. By mail, pound, 25 cents; 5 pounds, $1.00, postpaid. Write for peck and bushel prices.

Kidney Vetch—A new and valuable forage plant for dry and sandy situations. It is perennial, and can be sown either in Fall or Spring. It is said to keep green longer than any other crop during droughts. The Spring crop should be with grain as it does not

GRASSES AND CLOVERS—Continued.

ANNUAL CRIMSON CLOVER.

August or September, Winter pasture is secured and a crop of hay, and ground left in better condition than ever for a crop. In this and more Southern sections it can be planted profitably as late as December, while it does best, especially if wanted for early pasture sown between the middle of August and first of November. It should be cut when in bloom, but before seed forms. Let your land be well prepared and well manured. Sow fifteen to twenty pounds to the acre. Pound, 15 cents; 6 pounds, 75 cents. By mail, pound, 25 cents; 2½ pounds, 50 cents; 5 pounds, $1.00 postpaid. Peck, $1.50. Write for bushel prices.

California Burr Clover (Medicago Maculata)—Called California and Hog Clover; a Winter growing variety, furnishing pastureage January to March. It is annual, but re-seeds itself upon the land. Cattle soon learn to like it, and hogs are specially inclined to it. Seed should be sown on the surface of the ground in August to October, two to five bushels per acre, but a less quantity sown will seed the land well for the next year. Stop pasturing it by April 1st, in order that the seed may be matured. The land may be planted in corn or cotton by leaving a space of one foot unbroken between the rows, on which seed enough will mature, and after the Clover dies down the middles may then be broken out. The seed is in a burr and weighs from ten to fifteen pounds to the bushel. Pound, 20 cents; 5 pounds or more at 15 cents pound. By mail, 30 cents; 5 pounds, $1.00, postpaid. Write for prices in large quantity.

Red Clover (Trifolium Pratense)—The leading variety of Clover, and is more cultivated for hay pasture and as enricher of the soil than any other. Best adapted to stiff soils, but does well on any land rich enough to sustain it. It is perennial. Should be cut when in full bloom. It should not be cut more than twice, that seed may mature and drop, thus

Mr. E. S. Deschamps, Sumter County, S. C., January 16th, 1900, says: "Gentlemen—I feel safe when I plant your seed, because I have never failed to get a stand, and best results in every respect over other seed."
GRASSES AND CLOVERS—Continued.

produce a full crop until second season. In appearance it is somewhat similar to Lucerne seed. Seed should be sown at the rate of twenty pounds to the acre. The flower is a beautiful pinkish yellow blossom. Give it a trial. Pound, 25 cents; ten pounds and over, 20 cents per pound.

Meadow Fescue, or English Blue Grass. (Festuca Pratensis)—Sometimes called Evergreen or Randall Grass. A valuable perennial grass for a permanent pasture or hay. Weighs twenty-four pounds to the bushel. Sow in Fall or Spring alone or in combination with clover or other grasses, one half bushels to the acre. Pound, 20 cents. By mail, pound, 30 cents; 3½ pounds, $1.00, postpaid. Write for full bushel prices. Mention quantity desired.

JOHNSON GRASS—(Sorghum Halophyllum). Called also Mean’s Guinea Grass, Green Valley Grass, Cuba Grass. This is a perennial which can be propagated from the roots or seed. Excellent for hay or pasturage. Makes the best growth on rich bottom lands, and will give three cuttings of about two tons each when in good condition. It starts early and grows continually till killed by frost. Stands severest drouths; eagerly eaten by all stock, and hogs are fond of the roots. Sow in August or September or in Spring, one to one and a half bushels to the acre. We consider liberal seeding best. Pound, 15 cents. By mail, pound, 25 cents; 5 pounds, $1.00, postpaid. Write for bushel prices. Mention quantity desired.

KENTUCKY BLUE GRASS (Poa Pratensis)—One of the best for a pasture grass. Especially useful in mixtures with other grasses in open woodlands, front yards and ornamental plots. It should be sown with Orchard, Tall Meadow Oat and Clover, stock exceedingly fond of it. It requires rich land; will not take on thin soils; low ground, when the soil is dark colored and contains lime, or on seepy hillsides it does well. Sow in Fall or Spring, twenty to thirty pounds to the acre. Weighs fourteen pounds to the bushel. Pound, 20 cents. By mail, 30 cents; 4 pounds, $1.00, postpaid. Write for peck and bushel prices.

HUNGARIAN AWWLESS BROME GRASS. (Bromus Inermis.)

A hardy perennial, "standing extremes of heat, cold and drought better than any other of our cultivated grasses." In the South it remains green all Winter. It grows with wonderful rapidity, and produces heavy hay crops and luxuriant pasture. It will grow well on all kinds of soil, even on yellow sand, although, of course, on this it does not produce so abundantly, but even under these less favorable conditions it gives a very large yield." All kinds of stock eat it greedily, and the analysis made shows that it is exceedingly rich in flesh-forming ingredients. The seed should be sown early in the Spring or Fall. Pound thirty to forty pounds to the acre. Price, per pound, 25 cents; if by mail, 35 cents; 10 pounds and over, 20 cents per pound; 30 pounds and over, 18 cents per pound, F. O. B., Augusta.

HERDS, or RED TOP GRASS (Agrotis Vulgaris)—Thrive on any good soil; is especially suited to low, swamp soil; remains in fair condition throughout Winter: not easily killed by overflows, even when covered by water for two or three weeks at a time. Does not make much show during the first season, but becomes more dense with age. Particularly desired for early Spring grazing. In seeding land, it is well to add one bushel of English Perennial Rye Grass, which makes a speedier growth, and almost wholly disappears after first season, when the Red Top will become stronger and occupy the ground more fully. One of the best grasses to use in stopping washes. Weighs fourteen pounds to the bushel. Sow in Fall or Spring, one to one and a half bushels to acre. Pound, 12½ cents; by mail, pound, 25 cents; 5 pounds, $1.00, postpaid. Write for bushel prices; state quantity desired.

LUCERNE, or Alfalfa (Medicago Sativa)—This is one of the most valuable Clovers that we have; does not bear much pasturage; gives four to five successive cuttings, beginning early, of valuable hay during the summer. It is best suited to rich sandy lands. Its roots penetrate to a great depth, hence no drouth hurts it. It does well sown broadcast or in drills; take care of it the first summer, after that, with moderate good treatment, it will take care of itself. When once set it will last a lifetime. Cut it as often as you find it grown; do not let it stand to bloom. We cannot recommend this grass too highly to any one who will give it a place on rich lands well prepared. Weighs sixty pounds to the bushel. Sow in Fall or Spring, ten to fifteen pounds per acre, in drills, or twenty pounds broadcast. February has proved a very successful season for us here. Pound, 15 cents. By mail, pound, 25 cents; 4 pounds, $1.00, postpaid. Write for peck and bushel prices.

Volhava Clover (Melilotus Albus).—Called also White Clover. Is not considered being excellent for forage; this Clover is being used a good deal by bee fanciers, as it is rich in honey. Weighs thirty-two pounds to the bushel. Sow in Fall or preferably early Spring, twelve to fifteen pounds to the acre. Pound, 25 cents. By mail, 35 cents; 4 pounds, $1.00, postpaid. Write for peck and bushel prices.

GRASSES AND CLOVERS—Continued.

Mr. A. L. Anderson, Troup County, Ga., May 4th, says: "Gentlemen—The twenty bushels of Johnson Grass seed bought of you gave perfect satisfaction."
GRASSES AND CLOVERS—Continued.

LUCERNE, OR ALFALFA.

Sweet Vernal (Anthoxanthum Odoratun)—A perennial grass of sweet odor when cured. Weighs six pounds to bushel. Sow in Fall or Spring, three to four pounds to acre in combination with other grasses. Write for peck and bushel prices.

Alsike Clover (Trifolium Hybrldum)—Called also Swedish Clover. Succeds best on moist, strong lands. Weighs sixty pounds to the bushel. Sow in Fall or Spring, twelve to fifteen pounds to acre. By mail, pound, 30 cents; 4 pounds, $1.00, postpaid.

Tall Meadow oat Grass (Arrhenatherum Avanaceum)—Doubly valuable for forage and the excellent Winter grazing it affords. Suited to any good cotton land; it does well on sandy, gravelly soil; can be cut twice a year. To make good hay, cut as soon as in bloom. Much used in combination with other grasses. Weighs eleven pounds to the bushel. Sow two bushels to the acre in Fall or Spring. Pound, 20 cents. By mail, pound, 30 cents; 3/4 pounds, $1.00, postpaid.

Italian Rye (Lolium Italica)—Weighs eighteen pounds to the bushel. Sow in Fall or Spring, one to two bushels to acre. Pound, 15 cents. By mail, pound, 25 cents; 4/5 pounds, $1.00, postpaid.

Timothy (Phleum Pahense)—The standard hay grass in states North of us. Weighs forty-five pounds to the bushel. Sow in Fall or Spring, fifteen to twenty pounds to acre. Pound, 10 cents. By mail, pound, 20 cents; 5 pounds, $1.00, postpaid.

Write for prices on peck and bushel of any Grasses or Clovers, stating quantity desired.

English Perennial Rye (Lolium Perenne)—Weighs twenty pounds to the bushel. Sow in Fall or Spring, one to one and a half bushels to the acre, or less in combination. Pound, 15 cents. By mail, pound, 25 cents; 4/5 pounds, $1.00, postpaid.

Giant Beggar Weed (Desmodium Molluc)—Grows in popularity each year. Sow at any time after frost is over, until the middle of June, in drills three feet apart, three to four pounds to the acre, or broadcast, ten to twelve pounds to the acre. Weighs sixty pounds to the bushel. Pound, 30 cents. By mail, pound, 45 cents postpaid. Write for quantity price.

Japan Clover (Lespedeza Szriaa) — An annual, but persists itself when once set. Makes its appearance early in Spring, and is not ready for grazing before June, but grows rapidly till killed by frost. Eaten greedily by all stock. While it does best on lime soil, it will also do well on red clay hills, where Red Clover will fail. Weighs twenty pounds to the bushel. Sow in Spring, one bushel to the acre. Pound, 25 cents. By mail, pound, 35 cents; 3 pounds, $1.00, postpaid. Write for peck and bushel prices.

OUR EVERGREEN MIXED LAWN GRASS.

This Lawn Grass seed is a mixture of a number of such grass seeds as have been found to produce in this climate the best results. For the permanency and beauty of the sward it makes, it cannot be surpassed. By its use a rich, green, velvety lawn can be made and maintained with only such care as is necessary to do so.

Preparation of Soil—Have the ground deeply dug, moving all other grass roots. Fertilize liberally with well rotted stable manure. After a day or two, rake back and forth so as to break all clods of earth, leaving the ground in perfectly smooth and level condition.

Seeding—Plant from September to the middle of November, and in Spring up to April. In our section, thick seeding is always best, and we so advise. For a plot 10x30 feet (300 square feet), use one pound of seed, for an acre, three bushels of 45 pounds should be used. Seed should be evenly sown over the top of

GRASSES AND CLOVERS—Continued.
Grasses and Clovers—Continued.

the ground and afterwards lightly raked and then rolled; if a roller is not convenient, put down lightly with back of spade. Take care afterwards that weeds or other grasses do not spring up while grass is young. Lawns should be regularly cut as often as once a week. Use a lawn mower. Water when necessary late in the afternoon, especially during dry spells. After being well established, a top dressing of cotton seed meal or ground bone meal will be of great benefit. These furnished by us are the best to promote the growth of this grass. Weighs fifteen pounds to the bushel. Pound, 30 cents; 4 pounds, $1.00; bushel, $5.00. By mail, 40 cents; 2½ pounds, $1.00, postpaid.

Our Special Mixture for Hay and Permanent Pasture—Variety of grasses and heavy seeding are necessary to establish permanent sods for meadows or pasture lands. We use for all mixtures Red or White Clover, Orchard, Red Top and Tall Meadow Oat. Grasses, and add to these such other grasses as seem best adapted to the land to be sown, and the purpose desired, whether for hay only, or for both hay and pasture. We follow the best authorities, Dr. Phares, Prof. Chas. L. Flint and Mr. Howard, in making these mixtures, and have usually succeeded in getting satisfactory results. Two or three bushels are usually sown per acre. Fall sowing is much better than Spring, because there is less interference before indigenous growth can come in. Spring. Weighs seventeen pounds to the bushel. Pound, 20 cents. By mail, 30 cents; 3½ pounds, $1.00, postpaid. Bushel, $2.50; 10 bushels at $2.25 per bushel.

Our Special Mixture for Golf and Polo Grounds—This mixture has been tried on Golf ground with much success. Will thrive on most any soil. It was gotten up for sandy lands, therefore has some very hard and heavy grass in the mixture, staying green in the Winter months. Weighs twenty pounds to the bushel. Sow from forty to sixty pounds to the acre. If you have a sandy plot, that other grasses will not grow on, and wish to make a green lawn, try our Golf Mixture. Ground Bone Meal is a fine fertilizer for this grass. Price of Golf Mixture, pound, 30 cents; 4 pounds, $1.00; peck, $1.25; bushel, $1.90; 10 bushels or more, $1.75 per bushel.

Laughon's Patent Hand Seed Sower.

For sowing Wheat, Hemp, Oats, Barley, Ry e, Buck wheat, Grass Seeds, Clover, Millets, etc. The best machine of the kind in the market. The grain is held in a light sheet iron hopper, surrounded by a bag which will hold a bushel of seed. This is suspended by a strap from the operator’s neck, and held in position by a strap around the waist. The seed is thrown from eight to twenty feet on each side of the operator, the heaviest seed being of course, thrown the greatest distance. Price, $3.50. Directions for using with each machine.

Laun mowers.

Westfield—Neat, strong and durable. Twelve-inch, $3.50; 14-inch, $3.75; 16-inch, $4.25.

Pennsylvania—The prettiest, best and most durable mower made. Twelve-inch, $7.50; 14-inch, $8.00; 16-inch, $10.00.

Pony and Horse Mowers—Prices furnished on application. These are especially recommended for Golf grounds.

“Planet, Jr.” Grass Edger.

Grass Edger.

Extreme neatness is the great secret of attractiveness in the grounds about a house. The Grass Edger assists wonderfully in producing this effect. It will edge straight or curved work—paths, drives, borders or flower beds. Strawberry growers will find the Grass Edger, with the hose removed, a rapid and perfect tool for cutting off surplus runners. Price, $6.00.

Araucaria Excelsa (Norfolk Island Pine)—This most beautiful of all tender evergreens is becoming more popular every season. As a decorative plant for the house, it is the most graceful and ornamental of all.

Bon Air Golf Club, Richmond County, Ga., May 1900, says: “Gentlemen—Your Golf Mixture came up beautifully and made a splendid turf on our course.”
OATS, RYE, WHEAT, BARLEY, Etc.

Blue Stem or Blue Straw Wheat (60 Pounds). This wheat we sold thousands of bushels last Fall. It is spoken of highly by the Experimental Stations. Reports from many of our customers who planted this wheat for the first time last year, say it did well all through the dry season we had. Our own observation of wheat in this country shows that it can be grown here successfully. Many did not fertilize enough, and we had but little rain. Our seed are pure and true to name. We have had an experienced man to inspect the crops from which our seeds come. It is as free from cockle and chaff as it is possible to have it. It is poor economy to buy cheap seeds. Write for our prices. State quantity desired.

We can also furnish Early Red May, Paills, and other choice varieties of seed wheats. Beware! of so called "seed" wheat sold by some grocery and feed stores. Write for our prices; mention variety and quantity desired.

SAVE THE ASHES FROM WOOD

and use them as a fertilizer for your wheat. It has been tried with success. Soak wheat in Blue Stone or Blue Vitriol, two pounds to fifty gallons of water. We furnish Blue Vitriol at 15 cents per pound, 2 pounds for 25 cents.

Barley—Largely used for grazing and green food. Some of our patrons buying seed barley for this last Fall, wrote us in May. Our seed is selected and proved to be the best. Write for prices; mention quantity.

Cow Peas—More attention should be given these varieties of field crops; they contain more nourishment as hay than clover. It is the old reliable standby for this section. Weights sixty pounds to the bushel. Plant from May until August, one to one a half bushels to acre.

Unknown Pea—Called by some the "Diesis," and is identical with the pea so extensively advertised as the "Wonderful Pea." One of the best field peas we know of; by far the largest vine maker and producer of seed. Elegant for cooking. Pound, 15 cents; 8 pounds, $1.00, postpaid. We can also furnish Clay, Whippoorwill and Mixed Cow Peas. Write for bushel prices; mention quantity.

Japanese Buckwheat (New). This is the most productive of all varieties, and the most profitable to raise. The grain is double the size of ordinary varieties. Very early for bees to forage on. Pound, 15 cents; 4 pounds, 35 cents; peck, 60 cents; ½ bushel, $1.00; bushel, $1.75. By mail, pound, 25 cents; 5 pounds, $1.00, postpaid.

Extra Early Bunt, or Ninety Days Oats—A very heavy oats; grows tall and has white beards. This is one of the most popular oats planted in this section. It stood our Winter and yielded more than any oats planted here. This variety can be planted in Fall or Spring. It is very prolific; our stock being bright and heavy. We would suggest ordering early, as there will be a big demand for this popular variety. Write for prices; mention quantity.

J. S. Barden, Alten County, S. C., June 9th, 1900, says: "Gentlemen—I planted Blue Stem Wheat bought from you, the result being most satisfactory. Heads range from six to seven inches in length, stalks four feet. I have never planted a variety that has given as good results."

Apple Oats—The Georgia Experimental Station speaks very highly of this variety. It is a rust-proof; harder than the Texas; later in maturing than the Bunt, but earlier than the Native or Texas Rust-Proof. Very prolific. We inspected the growing crop and harvesting; seed bought of us will be clean and true to name. Write for prices.

Native Rust-Proof Oats—Our native grown Rust-Proof Oats are much preferred by many. This is an improved rust-proof Oats. They stand more cold and are heavier than 12 Texas Oats. Our stock is selected, bright and heavy. Write for our prices; mention quantity.

Texas Red Rust-Proof Oats—Well cleaned; stock very fine. Write for prices; mention quantity.

Home Raised Rye—It has been found by careful experiments made here, and by the experience of those who plant year after year, that seed rye raised in this latitude grows much more vigorously and yields more abundantly in grain, than that even grown in the mountain section of North Georgia. Dairymen and stock raisers here use home-grown seed in preference, often at double the price of Tennessee and Illinois Rye. We command a limited quantity of home-raised seed, grown a few miles south of Augusta. Write for prices; mention quantity.

Georgia Rye—It grows tall, and not like the Western rye that runs on the ground instead of growing upright. Our sales increase every year on this Georgia rye, which is a testimonial of its merits. Write for prices; mention quantity.

RURAL BOOKS.

"Hicks' Almanac"—So accurately in the past has Mr. Hicks predicted storms, tornadoes, frost, drouth, etc., that he has gained a national reputation—contains weather forecasts for the year. Price, 30 cents, postpaid.

"999 Questions and Answers"—On gardening subjects, 200 pages; a book turned to every day. Paper cover, 60 cents.

"Truck Farming at the South"—A work giving the experience of a successful grower of vegetables for Northern Markets; illustrated. Cloth cover, price, $1.50.

RURAL BOOKS—Continued.
RURAL BOOKS—Continued.

"Celery for Profit"—The newer improved method for culture of celery; paper cover. Price, 25 cents.

"Gardening for Profits"—By Peter Henderson. A standard work on market and family gardening. The book contains over 250 beautiful color illustrations. Price, $1.00; in small cloth, $1.50.

"Cabbage, How to Grow Them"—A practical treatise on cabbage culture; paper cover. Price, 50 cents.

"Practical Floriculture"—By Peter Henderson. Illustrated beautifully; new and enlarged edition; cloth, $1.50.

"The Beautiful Flower Garden"—An important part of this valuable book is devoted to descriptions of flowers easily procured and grown from seeds, bulbs and cuttings, with bright sketches. Price, 40 cents, postpaid.

"Poultry Fowl"—Contains experience of a number of practical men; illustrated. Price, $1.00.

"Five Hundred Questions and Answers"—In poultry raising; paper. Price, 25 cents.

"Broom Corn and Brooms"—A treatise on raising broom corn, and brooms on a small or large scale; cloth. Price, 50 cents.

"Hemp Culture"—The latest work on this valuable plant. Price, 50 cents.

"The New Potato Plant"—By Ebert S. Carmel—From the experiments with potatoes for fifteen years. Price, paper cover, 40 cents.

"Tomato Culture"—Tomato culture in the South; 130 pages; illustrated; paper cover. Price, 35 cents.

"The Young Market Gardener"—A guide to beginners in market gardening; illustrated; paper cover. Price, 50 cents.

FERTILIZERS.

"Early Trucker"—The best for all truck and garden crops. We have had so many inquiries from our patrons for a fertilizer specially made for vegetables, melons, small fruits, etc., that we have arranged with the Georgia Chemical Works, of this city, to put up and furnish to us the "Early Trucker." The amount is in such form as will give the crops a quick start and keep them growing. It runs unusually high in potash, a most important plant food for vegetables; and the phosphoric acid is in its most available shape. We can furnish it in bags small enough (fifty pounds) for an ordinary home garden, or in as large quantities as may be wanted. Price, 50 pounds, $1.00; 100 pounds, $1.90; 200 pounds, $3.50; ton, $24.00, delivered in freight depot here.

Ground Bone Meal—15 to 16% recommended for cabbage, onions, potatoes, asparagus, strawberries, lawn grasses by man and other plants. It makes a permanent fertilizer, as the bone is steadily decomposing. Price, 5 pounds, 25 cents; 25 pounds, 75 cents; 50 pounds, $1.25; 100 pounds, $2.00, one sack (200 pounds), $3.50; one ton, $25.00.

Nitrate of Soda—By careful test it is shown that nitrate of soda used on vegetable, potato, cotton, melon and other crops, at the rate of 75 to 150 pounds to the acre, will double the yield. Being very soluble, it is a ready plant food, containing nearly 16 per cent. of nitrate of soda, and will furnish phosphates on its use. Fifty pounds, 4 cents per pound; 100 pounds or more, 3½ cents per pound; 400 pounds or more, 3½ cents per pound. Write for prices in large quantity.

Cotton Seed Meal—One sack (100 pounds), $1.00. Prices on ton or more will be given on application.

Acid Phosphate—With or without potash, can be furnished. Prices given on application. Be sure and mention amount wanted.

Special Wheat-Grower—Standard Grade—One of those that should be used by all wheat and grain farmers. Write to us for prices; mention quantity desired.

Land Plaster—In bags of 200 pounds each, $1.00 per bag. Write for other prices.

Makes Flowers Flourish—Flowers are like people. Their health depends upon their food. It must be nutritious, but not too rich to last and cause reaction. The one chemically correct flower food for house plants is WALKER'S EXCELSIOR BRAND. It has no odor whatever, and can be used dry or dissolved in water for sprinkling. Use it and your flowers will flourish and their health will last. Small size (feeds 25 plants six months), 25 cents; large size (enough for a year), 50 cents. Sent prepaid anywhere. With each package we send FREE the book, "How to make the Window Garden a Success."

Nitrate of Soda in Cans—For use on flowers. Price, 3% pounds, 5 cents; 1 pound, 10 cents; postage, 18 cents extra.

INSECTICIDES.

"Bug-Death"—A comparatively new insecticide, but one of much merit. It is safe to use. Destroys the potato bug, cabbage worm and bugs, squash and bean bugs and other insects on vegetable and house plants. It is poison to potatoes if conveniently put up. Price, 1 pound, 15 cents; if by mail, 33 cents; 3 pounds, 35 cents; 5 pounds, 50 cents; 10% pounds, $1.00.

Slug-Shot—Specially recommended for destroying the cabbage worm, potato bug, tobacco worm and all insects and worms; turnip and beet fly. It is ready for use; only requires to be dusted on the plants while well with dew; or when applied in evening, plants should be watered over the leaves half an hour before the Slug-Shot is applied. Pound, sprinkle cartons, 15 cents; if by mail, 30 cents; 5 pound package, 35 cents; 10 pounds, 65 cents; 25 pounds, $1.15.

Whale Oil Soap—Very effective for washing trees and destroying all insects on the bark; it is also an exterminator of insects and lice on plants and shrubbery. It will promptly rid cabbage and other vegetable plants. Pound, 20 cents; 2 pounds, 35 cents; 5 pounds, 50 cents. If by mail, 16 cents per pound extra for postage.

Permal Copper Soap—The experiments made by U. S. Department of Agriculture have demonstrated that copper is the only sure poison for fungous and other insects, and Disease. Paper, $1.00 per pound. Price, 75 cents per pound; if by mail, add 18 cents.

Permal Kerosene Soap—Guaranteed 25% per cent of kerosene oil. Directions on each one pound packet. Pound, 35 cents, postpaid.

Pyrethrum Persian Insect Powder—Very destructive to all kinds of insects, such as roaches, ants, flies and fies. One, 10 cents; ½ pound, 15 cents; ¾ pound, 25 cents; pound, 50 cents. If by mail, 16 cents per pound extra for postage.

Lemon Oil Insecticide—The very best remedy for house plants, palms, etc., effectually destroying green fly, red spider, scale, mildew, etc. It has no bad odor, is inert or non-poisonous to animals in water, and can be applied to plants of most delicate foliage without danger. The "Lemon Oil" is a capital wash for dogs; it cures mange. Half pint by mail, 35 cents; pint, 40 cents, by mail, 60 cents; quart, 75 cents; half gallon, $1.25; gallon, $2.00.

Powdered White Heliothis—For all insects. Quarter pound, 10 cents; ½ pound, 20 cents; 1 pound, 35 cents. If by mail, 18 cents per pound extra for postage.

Paris Green—Has been used effectually for the web worm and other insects. Quarter pound, 10 cents; ½ pound, 25 cents; 1 pound, 50 cents. If by mail, add 5 cents; ½ pound 10 cents; ¾ pound, 16 cents. Write for prices in quantity; mention quantity.

London Purple—Very poisonous and equally as efficacious as Paris Green, and more soluble in water. Pound, 25 cents; 1 pound lots and over, 20 cents per pound. If by mail, add 16 cents per pound for postage.
Sprayers and Powder Distributors.

MESSRS. HUGHES BROS., RICHMOND, COUNTRY, GA., SAY: “Gentlemen—The Blue Straw Wheat you sold us last year proved very successful. We did not fertilize at all and the average height was about four feet; heads long and plump.”

Mr. T. L. Milner, Jr., Columbia County, Ark., May 24th, 1900, says: "Gentlemen—The seeds are all coming up fine that we bought of you. Some that we bought of other parties are not coming up at all. We will send to your house after seeds from now on."
BULBS FOR FALL PLANTING.

We import our Bulbs direct from Holland and France. Roman Hyacinth and Paper White Narcissus arrive about the first of August, other Bulbs, latter part of September. Parties who got Bulbs of us last year had much success with them, and from the inquiries coming in, the prospects are for a large increase in our Bulb business this season, therefore we would advise you to place your order for Bulbs early. Don't wait. Nothing will so beautify your gardens as these gorgeous, sweet scented, early spring flowers.

HYACINTH.

Cultivating and Forcing Bulbs.

Out-Door Planting—To have bulbs bloom in early Spring they should be planted from latter part of September to first of December, in deep rich soil. Give them a liberal supply of water at first. Just before the very cold weather sets in, cover with a coating of well decomposed manure, which remove early in Spring, and loosen soil around bulb. Top of bulb should be two to four inches below surface of the ground.

Forcing in Pots—Plant in light, rich, sandy soil. If possible use soil composed or equal parts of well rotted cow manure, loam (the top spit of an old, rich pasture) and river sand leave one-third of the bulb above the soil; water well; plunge pots in loose soil or sand; cover them about six inches. After four or six weeks uncover, put in a warm place and give plenty of air and light. We advise the use of old, well washed pots as being best.

Forcing Hyacinths—For blooming in-doors in glasses, select round and good-shaped bulbs. Keep them in a cool and dark place for about four weeks until they have formed roots four or five inches long, and see that the water always touches the bottom of the bulbs. Then give them plenty of light and sun, and as much air as the weather will permit. Renew water every month.

TRUMPET MAJOR—A large and shapely flower of a rich yellow color; an excellent sort for forcing or bedding. Price, 5 cents each; 40 cents per dozen; $2.50 per 100.

CHINESE SACRED LILY.

(Soy Sin Far, joss Flower, or Flower of the Gods.)

The Chinese Sacred Lily (Narcissus Orientalis) is the variety grown by Chinesen for decorating their temples or joss-houses on their New Year’s Day, which occurs in February. It can be readily brought into bloom by Christmas. It is very easily handled, bears pure white flowers with a lemon or orange cup and, as it can readily be brought into bloom when in water, it will give a great deal of pleasure for a little outlay of labor. 10 cents each; 3 for 25 cents; 50 cents per dozen. Original baskets of 30 bulbs, $2.00. If wanted by mail, add 5 cents per bulb for postage.

FREESIA.

Refracta Alba No. 1 (See cut)—This is one of the most graceful and beautiful flowers of all the bulbs. Its most delightful fragrance makes it a very popular flower. One pot of five or six bulbs will perfume a house. They force very easy; can be had in bloom by Christmas and continue in succession until June. Price, 3 cents each; 25 cents per dozen; $1.50 per 100.

FREESIA REFRACTA ALBA.

SUMMER OFFER, 1900

THE 4 FOR 25 CENTS.

We will send by mail, postpaid, a ten cent packet each, Early Snow Ball Winter Turnip, Georgia Collard, Bon Air Ruta Baga and Augusta Early Trucker Cabbage, for 25 cents

ILIAS—These are graceful in growth. The flowers of the most brilliant rich, and varied colors, make pretty borders, or indoor pot plants. Choice Mixed Colors. Price, 3 cents each; 15 cents per dozen; $1.25 cents per 100.

RANUNCULUS (See cut)—These beautiful dwarf flowering bulbs prefer a cool situation, are quite an acquisition to any garden; also make pretty pot plants. Price, 3 cents each; 20 cents per dozen; $1.50 per 100.

OXALIS (Pine Mixed.) Very attractive, profuse bloom- ers, make pretty bedding plants, pot plants and useful for hanging baskets. Price, 3 cents each; 20 cents per dozen; $1.25 per 100.

Mrs. Katie Whitehead, April 2nd, 1900, Franklin, Co., Miss., says: "Gentlemen—This is the third year I have ordered seed from you, and have always found them satisfactory."
ANEMONE.
This hardy Spring flower is becoming more popular as a garden flower; also used for pot culture. Plant in October or November, or as soon as the ground can be worked in the Spring.

Double Choice Mixed—Price, 3 cents each; 25 cents per dozen; $1.75 per 100.

LILIES.
This is the gem of all flowers from bulbs. Their fragrance and beauty are unequalled. Plant in the Fall, deep.

Lily of the Valley, 5c. 0.40

If by mail, add 3 cents each for postage.

ALLIUMS.
This is a bulbous plant very easily cultivated, requires little attention, bringing much returns.
Neapolitanum—Long flower stems, bearing large clusters of beautiful starchy white flowers. Price, 3 for 10 cents; 25 cents per dozen; $1.50 per 100.

IMPORTED JAPANESE FERN BALLS.
Something New from Japan.
These fern balls arrive from Japan in January. The roots are twisted and worked together in a ball shape about eight inches in diameter. The fresh young leaves soon sprout out and form a solid mass of ferns, completely covering the ball (see illustration), forming a ball of fern leaves fifteen to eighteen inches in diameter, when fully developed. These fern balls do well hanging in a window where not too much sun reaches them. Keep the ball moist by dipping it occasionally in a pail of water or pouring on top. Sent by express at buyer's expense. Price each, 75 cents, or 3 for $2.00; 12 for $7.00. If to be sent by mail, add 12 cents for postage.

HYACINTH GLASSES.
Tall, Flat Bottoms, Red, Blue or Yellow—20 cents each; $2.25 per dozen. All White, 15 cents each; $1.50 per dozen.
Tyle, or Short—Large round bottom, all colors. 75 cents each; $2.50 per dozen.
Chinese Sacred Lily Bowls (Glass)—For one or two bulbs. 25 cents each.
Japanese Decorated Ware—50 cents each.

Mrs. C. G. Holly, Greenwood County, S. C., March 2nd, 1900, says: "Gentlemen—I find your seed the best on the market. Grow fine vegetables from them every year."
FLOWER SEEDS.

In the list of flower seeds here named, many of them are annuals, and can be sown during the Summer months to advantage. Others are hardy; can and should be planted in the late Summer and early Fall months, needing slight protection during the cold weather. The best results with Sweet Peas can be expected when planted in October and November.

Alyssum (Sweet)—Free flowering and very fragrant. Useful for edging and bedding. White. Packet, 5 cents.

Aster—A flower garden is incomplete without these popular and effective flowers. For late Summer and Fall displays, they have but few equals. Choice mixed. Packet, 5 cents.

Balsam (Ladies Slippers)—An old favorite; blooms in great profusion. Packet, 5 cents.

Calendula—A showy, free flowering annual. Choice mixture. Packet, 5 cents

Candytuft—A great favorite; culture easy. Makes a showy plant, either in beds or pots. Mixed, packet, 5 cents; pure white, packet, 5 cents.

Carnation—One of the most popular flowers; delicately fragrant. Colors extremely fine and varied. Choice mixture. Packet, 10 cents.

Dianthus (Pinks)—One of the most beautiful for beddng; flowers retain their beauty for a long time. Colors range from pure white to the richest crimson. Double mixed. Packet, 5 cents.

Double Daisy—This Hardy perennial is unsurpassed for edging shady borders and pot plants. Has been called the poet's favorite. White, packet, 10 cents; mixed, packet, 10 cents.

Hollyhock—Superb double. A well known garden favorite and one of the prettiest Summer flowers we have. Best planted in the early Fall. Choice mixed. Packet, 5 cents.

Mignonette (Sweet)—A well known, showy, fragrant favorite. Packet, 5 cents.

Nasturtium (Tall)—Mixed colors. Packet, 5 cents; ounce, 15 cents; 4 ounces, 40 cents.

Nasturtium (Dwarf)—Mixed colors. Packet, 5 cents; ounce, 15 cents; 4 ounces, 40 cents.

Petunia—Showy and popular plants for fine Summer garden. Fine mixed. Packet, 5 cents.

SWEET PEAS.

There is no flower attracting more attention than this one. Experience has proven that for the best results they should be planted in November. Select a dry situation and sow seed six inches deep in double rows, as you would for beets, and keep in a sunny place. With proper culture, they will flower early April, and may be expected to bloom for the remainder of the growing season. With rich culture, they will grow almost 30 inches high.

**Her Majesty**—Large, clear rose pink, an excellent sort. Packet, 5 cents; ounce, 15 cents; 4 ounces, 40 cents.

**New Dwarf, or White Cupid**—This charming variety only grows 6 to 10 inches high, making a dwarf, compact plant, often spreading over an area of from 10 to 15 inches. Flowers are pure white, two and three to a stem and very sweet. Packet, 5 cents; ounce, 10 cents; 4 ounces, 30 cents.

**America**—The brightest blood red striped on white grounds. Packet, 10 cents; ounce, 10 cents; 4 ounces, 30 cents.

**Aurora**—Flaked Orange and Salmon on white background. Packet, 5 cents; ounce, 10 cents; 4 ounces, 30 cents.

**Apple Blossoms**—Shaded, pink and rose. Packet, 5 cents.

**Borelton**—A dark, deep maroon. Packet, 5 cents.

**Emily Henderson**—A new American variety; pure white. Packet, 5 cents.

**Orange Prince**—Orange and salmon; is quite a favorite. Ounce, 15 cents; 4 ounces, 30 cents.

**Primrose Yellow**—New. This is a delicate canary yellow, with beautiful shades. Ounce, 15 cents; 4 ounces, 40 cents.

**Mrs. C. E. Allen, Marengo County, Ala., January 15th, 1900, says: "Gentlemen—I planted your seeds altogether last year, and my garden was beautiful."**

**Imperial Blue**—A grand invincible blue. Packet, 5 cents.

**Violet Queen**—New. Violet. One of the prettiest and latest. Ounce, 15 cents; 4 ounces, 40 cents.

**Tockford's Delight**—White, standard; at first tinted crimson, which becomes very softly diffused. Packet, 5 cents.

We have a mixture of above beautiful tinted Sweet Peas, combined with other choice varieties, that we sell in bulk. Packet, 5 cents; ounce, 10 cents; 4 ounces, 25 cents; 5 ounces, 40 cents; pound, 75 cents, postage 10 cents extra.

**Prices of Flower Seeds in bulk given on application. Mention quantity desired.**

**Makes flowers flourish**—Flowers are like people. Their health depends upon their food. It must be nourishing, but not too rich to force growth and cause reaction. The only chemically correct flower food for house plants is WALKER'S EXCELSIOR BRAND. It has no odor whatever, and can be used dry or dissolved in water for sprinkling. Use it and your flowers will flourish and their health will last. Small size (feeds 25 plants six months), 25 cents; large size (enough for a year), 50 cents. Sent prepaid anywhere. With each package we send FREE the book, "How to make the Window Garden a Success."

**Nitrate of Soda in Canes**—For use on flowers. Price ½ pound, 5 cents; 1 pound 10 cents; postage 18 cents extra.

FLOWER SEEDS—Continued.
FLOWER SEEDS—Continued.

PANSIES.

Our Premium Pansy.

This is the most popular of all flowers, and it is needless to say anything in praise of such universal favorites. Should be planted from August to November to insure large vigorous plants for early Spring blooming.

Our Premium Pansy Seed—Same strains of imported seeds as have been sold by us for several years, combining a mixture of the best varieties, which for size, richness in color and markings cannot be excelled. Flowers from the seed sold by us produce the largest and handsomest blooms ever seen here. Packet, 25 cents; five packets, $1.00.

German Pansy Seed—Flowers very showy. Packet, 5 cents.

Directions for planting Pansies sent on request of each purchaser of 1 packet of our Premium Pansy Seed.

..Special Offers..

We make the several offers below, and those made in the Catalogue, as an inducement to those who have never tried our Seeds and Bulbs to try them, and to those who have only tried a few, to plant more of them.

"Nothing risked, nothing gained" Good Gardens and Farms can be made better by planting our Seeds.

Our Window Garden Bulb Collection No. 1.

The bulbs and seeds named below are the same as offered in our catalogue. This collection is made up with such bulbs and seeds as will give an abundance of blooms, and best suited for house culture.

The Full Collection sent postage or Express paid, for $2.00.

8 Hyacinths—Single and double, colors separate.
4 Tulips—Parrot or Dragon, Petals curiously fringed.
4 Tulips, Duf-Van Thol—The earliest, best for forcing or pot culture.
2 Ixias—Charming plants for pot culture.
1 Packet Dwarf Nasturtium.
1 Packet Tall Nasturtium—For hanging baskets.
1 Calla Lily—Large bulb.
2 Chinese Sacred Lilies—For growing in water.
6 Hyacinths, Roman White—Quick bloomers.
6 Allium Neapolitanum.
6 Oxalis—Choice varieties, mixed colors.
6 Narcissus—Paper White, quick bloomers.
3 Narcissus (Major Trumpet)—One of the finest.

Mrs. W. P. Shell, January 24th, 1900, Jackson Parish, La., says: "Gentlemen—I have been using your garden seeds for years, and they give satisfaction."

For $1.00 WE will send Postage or Express paid the Following Collection No. 2.

1 packet Our Premium Pansy Seed.
1 packet Double Mixed Daisy Seed.
½ dozen Choice Hyacinths, assorted.

1 Ixias.
2 Alliums.
1 package Excelsior Plant Food.

Mr. G. A. Garret, Walton, Co., Ga., February 16th, 1900, says: "Gentlemen—Your Seeds always give better satisfaction than any other I can buy."

Mr. A. B. Broadwater, Edgefield Co., S. C., June 7th, 1900, says: "Gentlemen—I am charmed with the Planet Jr. Plow, it works with perfection. With it and the seed I bought of you I have the finest garden in the whole country.
Space will not permit our showing and describing all of the "Planet Jr." tools, but we will send a fully described catalogue, FREE, on the asking, to any who desire it. You can rely on getting the lowest prices from us on any of the "Planet Jr." goods.

The "Fire-Fly" Garden Plow.
This tool is most useful in small gardens, opening furrows for manure or seeds, and covering them quickly. Price, $2.50.

"Planet Jr." No. 17, Single-Wheel Hoe, Cultivator and Plow—This tool is identical with No. 15, but has only a pair of 6-inch hoes, a plow, and a set of cultivator teeth, an outfit sufficient for most garden work. Other attachments can be added at any time. Price, $4.75.

"Planet Jr." No. 16, Single-Wheel Hoe, Cultivator, Rake and Plow—This is a very useful one, its attachments are the ones most needed in ordinary work. Price, $6.00.

"Planet Jr." No. 15, Single-Wheel Hoe, Cultivator, Rake and Plow—This latest and best single-wheel Hoe, improved for 1900 has a very full set of tools, several of them being of new and special design. A full description furnished in Planet Jr." Catalogue. Price, $7.25.

Planet Jr. No. 25
Price, $14.00.

"Planet Jr." No. 3, Market Gardeners Hill Dropping Seed Drill—Sows either in hills or continuous rows. It has a 15-inch wheel, with broad face, is a very light runner. Price, $11.00.

The "Planet Jr." No. 5, Hill Dropping Seeder, New—This is one of the new tools of last year. See "Planet Jr." Catalogue. Price, $14.00.

"Planet Jr." Harrow, Cultivator and Pulverizer—This tool has rapidly grown into favor with the farmers, market gardeners and strawberry growers. It has a high frame and chisel shaped teeth, cut an inch wide each. See cut, for description. See Planet Jr. Catalogue. Price, complete, $10.50.

The "Planet Jr." No. 2, Seed Drill—This is a simple and most accurate Seed Drill, and has been the standard machine for years. This machine, with the Double Wheel Hoe, makes an excellent combination for large gardeners. Price, $7.75.

"PLANET JR." No. 11
Double Wheel Hoe, Cultivator, Rake and Plow—This is the third year of this splendid tool, and claimed to be the best tool ever made by them. Its variety of work is almost incredible. Price, complete, $9.50. See cut.

"Planet Jr." No. 12, Double-Wheel Hoe Cultivator, Rake and Plow—This machine is very serviceable, has 2 hoes, 4 cultivator teeth, 2 turn plows. Price, $7.25. This tool is identical with No. 11 Wheel Hoe, except that it has fewer attachments.

"Planet Jr." No. 25, Combined Hill and Drill Seeder and Double-Wheel Hoe—This new combined machine is intended for a class of gardeners who have a large enough acreage in crops for a double-wheel Hoe to be used to good advantage. It is large enough for field use, for it holds 2 1/2 quarts, or about 5 pounds of grain seed, and has 11 1/2 inch wheels. Price, $14.00.

"Planet Jr." No. 8
HORSE HOE.
Price, — — $10.50

The "Planet Jr." No. 1, Combined Drill-Wheel, Hoe, Cultivator Rake and Plow—The very best machine made for the two purposes, and does both well. Opens furrows for corn, beans, and potatoes and covers them. Price, $10.50.

"Planet Jr." No. 8 Horse Hoe—This is comparatively a new tool, and has rapidly grown into favor with farmers, market gardeners and strawberry growers. For full description, see "Planet Jr." Catalogue. Price, $10.50. (See cut.)

Can furnish this machine without either lever or wheel, write to us your wants in this line.

Good Gardens made Better by Planting our SEEDS.

DANISH BALL HEAD.
(SEED FROM DENMARK)

This variety is a true shipper, grows very close and firm, white and of excellent quality. The best keeping of all winter sorts. For planting at the end of spring this variety has few equals, as it is remarkably hardy and thrives even on thin soils and upon a high exposed situation. Price, Packet, 10c; ounce, 25c; ½ pound, 75c; pound, $2.50.

The space below is for remarks about your order, and for addresses of such of your friends who have gardens, are interested in seeds, and whom you think would like to have our Catalogue. Please give any other necessary correspondence on a separate sheet.
